**The New Imperialism** David Harvey,2003-10-02 People around the world are confused and concerned Is it a sign of strength or of weakness that the US has suddenly shifted from a politics of consensus to one of coercion on the world stage What was really at stake in the war on Iraq Was it all about oil and if not what else was involved What role has a sagging economy played in pushing the US into foreign adventurism and what difference does it make that neo conservatives rather than neo liberals are now in power What exactly is the relationship between US militarism abroad and domestic politics These are the questions taken up in this compelling and original book Closely argued but clearly written The New Imperialism builds a conceptual framework to expose the underlying forces at work behind these momentous shifts in US policies and politics The compulsions behind the projection of US power on the world as a new imperialism are here for the first time laid bare for all to see This new paperback edition contains an Afterword written to coincide with the result of the 2004 American presidential election

*Spaces of Neoliberalization* David Harvey,2005 In these essays David Harvey searches for adequate conceptualizations of space and of uneven geographical development that will help to understand the new historical geography of global capitalism The theory of uneven geographical development needs further examination The extreme volatility in contemporary political economic fortunes across and between spaces of the world economy cries out for better historical geographical analysis and theoretical interpretation The political necessity is just as urgent since social inequalities have increased in recent decades Fiscal crises have cascaded across much of the developing world with devastating results from Mexico to Indonesia Russia and Argentina Simultaneously the different oppositional movements to neoliberalism create both opportunities and barriers in the search for alternatives Harvey shows that this search needs to be supported by a deeper theoretical understanding of the roles of space and uneven geographical development in shaping the world around us
