DOUGHERTY, 2011-03 Yes you really can clean your house and everything in it using just 3 products and it will cost you about 20 per year I have owned a residential cleaning company since 2004 and this book actually started life as my employees handbook Since this book was first published not much has changed Dirt is still dirty and whether or not you want to clean your home it still has to be cleaned Most people hate to clean simply because they don t know how to do it they were never taught Were you actually taught how to clean Probably not but that s not your fault Do you want to learn how to do it like a professional using minimal products and saving a bucket of money on cleaning supplies If you do then buy my book First I will send you to the store with a short shopping list I will explain why I use each product and then how to use each product or tool which by the way isn t much I will then explain the logic behind my method of cleaning called The PATH and then I will literally walk you through cleaning the different rooms in your house The beauty of The PATH is that you can start and stop a cleaning job in any room and not loose your place Just pick up where you left off and continue until the room is clean So go answer the phone or change the baby I only use 3 readily available products in both my business and in my house to clean everything No more need for window floor counter toilet sink tub shower and mirror cleaners No more polishes waxes or air fresheners Just think about how much you spend a year on cleaning products Go ahead I ll wait while you look under your sinks and calculate that More than 20 00 per year If you are spending more than that you need my book Everyone that embraces my methodology has a cleaner home extra money to spend on the important things and the time to enjoy them I have a website *The Lost Art of House Cleaning* com where I have uploaded a number of videos demonstrating my methodology and posted numerous
