world's top Theory of Constraints (TOC) experts reveal how to implement the ground-breaking management and improvement methodology developed by Dr. Eliyahu M. Goldratt. Theory of Constraints Handbook offers an in-depth examination of this revolutionary concept of bringing about global organization performance improvement by focusing on a few leverage points of the system. Clear explanations supplemented by examples and case studies define how the theory works, why it works, what issues are resolved, and what benefits accrue, and demonstrate how TOC can be applied to different industries and situations. Theory of Constraints Handbook covers Critical Chain Project Management for realizing major improvements in delivering projects on time to specification and within budget; Drum Buffer Rope (DBR) Buffer Management and distribution for maximizing throughput and minimizing flow time; Performance measures for applying Throughput Accounting to improve organizational performance; Strategy, marketing, and sales techniques designed to increase sales closing rates; and Throughput Thinking Processes for simple and complex environments. TOC methods to ensure that services actions support escalating demand for services while retaining financial viability; Integrating the TOC Thinking Processes; the Strategy and Tactic Tree; TOC measurements; the Five Focusing Steps of TOC; and Six Sigma as a system of tools for sustainable improvement.

Managerial Accounting Michael Maher, Clyde P. Stickney, Roman L. Weil, 2004. This classic text for MBA programs offers balanced coverage of concepts, methods, and uses of managerial accounting with an increasingly strong emphasis on management decision making. This approach helps focus on concepts and managerial uses of financial information rather than techniques of cost accounting. The current edition emphasizes international issues, strategic effects of decisions, ethics, and new management accounting trends. Also emphasized are process improvement, integration of financial reporting issues for management decision making, and application of managerial accounting tools to the emerging service sector, government, and nonprofits in examples and problem material.
