Please note This is a companion version not the original book Sample Book Insights 1 The rise of strategy as the framework through which companies understand what they re doing and want to do has eclipsed any other change in the intellectual landscape of business over the past fifty years 2 The secret intellectual history of the new corporate world is as much about the challenges companies faced from competing with the Japanese in the 1970s to surviving a crisis in the global financial system in the twenty first century 3 The strategy revolution was led by management consultants who were able to put together all the elements that determined a company s corporate fate They lacked a rigorous sense of the dynamics of competition though 4 The book is an essay rather than a history meaning it incorporates the personal observations of the author It is an account of the ideas behind the strategy revolution and it includes interviews with several of the lords of strategy *Thinkers 50 Strategy: The Art and Science of Strategy Creation and Execution* Stuart Crainer, Des

Barton, 2014-12-19 In *Contested Treasure* Thomas Barton examines how the Jews in the Crown of Aragon in the twelfth through fourteenth centuries negotiated the overlapping jurisdictions and power relations of local lords and the crown The thirteenth century was a formative period for the growth of royal bureaucracy and the development of the crown's legal claims regarding the Jews While many Jews were under direct royal

authority significant numbers of Jews also lived under nonroyal and seigniorial jurisdiction Barton argues that royal authority over the Jews as well as Muslims was far more modest and contingent on local factors than is usually recognized Diverse case studies reveal that the monarchy's Jewish policy emerged slowly faced considerable resistance and witnessed limited application within numerous localities under nonroyal control thus allowing for more highly differentiated local modes of Jewish administration and coexistence Contested Treasure refines and complicates our portrait of interfaith relations and the limits of royal authority in medieval Spain and it presents a new approach to the study of ethnoreligious relations and administrative history in medieval European society *The Liberal Magazine*, 1911 **Twentieth Century**, 1911 The Nineteenth century and after London **Volume Three.
