NETWORKING 2002: Networking Technologies, Services, and Protocols; Performance of Computer and Communication Networks; Mobile and Wireless Communications Enrico Gregori, Marco Conti, Andrew T. Cambell, Guy Omidyar, Moshe Zukerman, 2007-06-30 This book constitutes the refereed proceedings of the Second IFIP TC6 Networking Conference Networking 2002 Networking 2002 was sponsored by the IFIP Working Groups 6.2, 6.3 and 6.8 For this reason the conference was structured into three tracks: i) Networking Technologies, Services and Protocols; ii) Performance of Computer and Communication Networks; and iii) Mobile and Wireless Communications This year the conference received 314 submissions coming from 42 countries from all five continents: Africa 4, Asia 84, America 63, Europe 158 and Oceania 5 This represents a 50% increase in submissions over the first conference thus indicating that Networking is becoming a reference conference for worldwide researchers in the networking community With so many papers to choose from the job of the Technical Program Committee to provide a conference program of the highest technical excellence was both challenging and time consuming From the 314 submissions we finally selected 82 full papers for presentation during the conference technical sessions To give young researchers and researchers from emerging countries the opportunity to present their work and to receive useful feedback from participants we decided to include two poster sessions during the technical program Thirty one short papers were selected for presentation during the poster sessions The conference technical program was split into three days and included in addition to the 82 refereed contributions 5 invited papers from top level researchers in the networking community
