

Eleventh Edition

# Chemistry

The background of the cover is a deep blue gradient with a subtle, wavy texture that resembles water. Scattered across this background are several 3D ball-and-stick models of water molecules. Each molecule consists of a large red sphere representing an oxygen atom and two smaller white spheres representing hydrogen atoms, connected by thin grey rods. The molecules are positioned at various angles and depths, some appearing to float above the surface and others partially submerged, with soft reflections visible below them.
