The Transformation Of O2 A Vanguard Case Study:

Bibliography of Agriculture ,1991-05 *Bulletin of the Atomic Scientists* ,1961-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *Bibliography of Agriculture with Subject Index* ,1991 Aero/space Engineering ,1960 Ophthalmic Literature ,1986 *Ceramic Abstracts* ,2001 **Metals Abstracts** ,1968 **F & S Index United States Annual** ,2006 The Vanguard Case Reconsidered Daniel Jacob Hemel,2016 Recent news reports have suggested that the Vanguard Group family of mutual funds may need to quadruple investors fees to cover corporate income tax liabilities Professor Reuven Avi Yonah has estimated that Vanguard s federal tax liability for the 2007 2014 period is roughly 34 6 billion For the more than 20 million investors in Vanguard funds the potential financial implications of the tax dispute are significant Vanguard would presumably pass its tax costs along to customers leading to higher expense ratios and lower returns For observers of the IRS the issue is an important one as well A 34 6 billion recovery from Vanguard would be multiples more than what the IRS has ever recouped from a taxpayer in a transfer pricing case Yet as this article argues fears that Vanguard fees might quadruple for tax related reasons are wildly overblown Moreover even if one accepts Avi Yonah s major premise that Vanguard s investment management company should pay corporate income tax on transactions with individual funds as if those transactions occurred at an arm s length price Avi Yonah s estimate of Vanguard s potential tax liability is implausibly high And if the IRS did seek to recoup back taxes and penalties from Vanguard the mutual fund family might be able to restructure itself to eliminate corporate income tax liability in future years None of this is to deny that the IRS may be able to recover a significant sum if it pursues a case against Vanguard and persuades a court to adopt Avi Yonah s major premise Using the best available data and assuming that an arm s length standard should apply this article estimates that Vanguard s past due taxes for the 2007 2014 period are in the range of 3 7 billion to 6 5 billion The imposition of penalties potentially increases those figures by up to 40 percent but even then the consequences for Vanguard and its investors would not be catastrophic This article explains the assumptions underlying Avi Yonah s calculation and recomputes Vanguard s federal tax liability using what I argue is a more realistic set of assumptions The article then evaluates Vanguard s ability to reduce its tax liabilities in the future through a change in organizational structure Finally the article discusses some of the factors that the IRS should consider in deciding whether to seek recovery from Vanguard
