Liberal ideas were spreading in Latin America with negative results. From Mexico to the tip of South America, revolutionary movements arose to overthrow the reigning European powers. By 1820, most of Latin America was freed from colonial rule.

Discontent Fans the Fires

By the late 1700s, the revolutionary fever that gripped Western Europe had spread to Latin America. There, discontent was fueled by the social, racial, and political systems that had emerged during the years of Spanish rule.

Social and Ethnic Structures Cause Resentment Spanish-born government officials, members of the highest social class, dominated Latin American politics and ruled the land. They held top jobs in government and the Church. Many revolutionaries, however, descended from immigrants who created the hacienda system, and some, including mestizo and mixed-blood children of Spaniards, looked upon revolutionary politics that led the colonies to Spain.

Meanwhile, a growing population of *mestizo*, people of Native American and European descent, and *criollo*, people of Latin and European descent, were angry at being denied the status, wealth, and power that were available to white, Spanish Americans. They wanted economic control over Spanish colonies. They had recognized the needs of their economies. In the Caribbean region and parts of South America, mines of precious minerals were worked on plantations bought by Spaniards.

The Enlightenment Inspires Latin Americans In the 1700s, enlightened ideas shed the shackles of Enlightenment ideas. They were the catalysts in North America to free of British rule. The revolutionaries of the Enlightenment of the 18th century led the revolution of the United States, which resulted in the creation of the United States.

During the French Revolution, young leaders like Simón Bolívar took Latin Americans to Europe and were inspired by the ideas of the Enlightenment. They saw the French Revolution as a model of how to overthrow a tyrant and establish a new government. They saw the French Revolution as a model of how to overthrow a tyrant and establish a new government.

Napoleon Invades Spain The spark that finally ignited widespread rebellion in Latin America was Napoleon's invasion of Spain in 1808. Napoleon wanted the Spanish king and placed his brother Joseph on the Spanish throne. In Latin America, leaders saw Spain's weakness as an opportunity to reject foreign domination and demand independence from colonial rule.

✎ **Checkpoint** How did events get many of their revolutionary ideas?

Slaves Win Freedom for Haiti

Slaves before Spanish colonies looked like the French revolutionaries had erupted in a French colony colony on the island of Hispaniola. In 1791, on the island of Saint-Domingue, French plantations owned many profitable sugar plantations worked by nearly a half-million enslaved Africans. Sugar and coffee were the main products. The slaves were unorganized and uneducated.

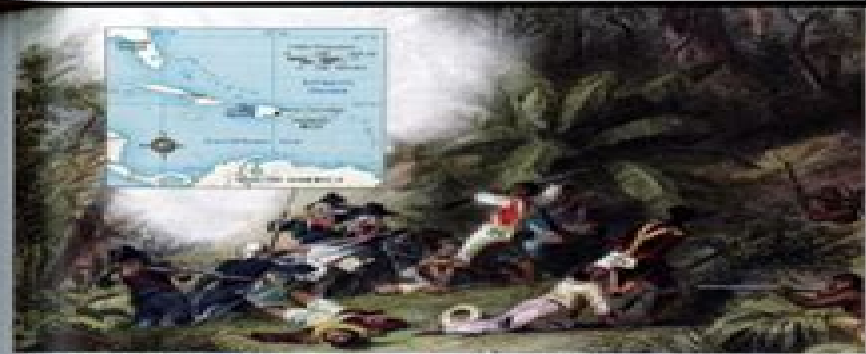

Success O'Donnell Leads a Slave Revolt Encouraged by reading and inspired by the talks of liberty and equality, the slaves began to rise up to revolt in 1793. The rebels were determined that an enlightened and stable leader like Francisco O'Donnell should govern them. They were determined to reject foreign domination and demand independence from colonial rule.

The rebels' army of former slaves faced many enemies. They were not organized. French plantations opposed the rebels. France, Spain, and all other nations against them. The fighting took more than three years and ended in the Americas. But by 1804, the rebels had achieved their goal: a new nation was established, and the world's first nation of free people was born.

Haiti Wins Independence In 1804, Napoleon Bonaparte sent a large army to reconquer the French colony. The rebels fought the revolution to take an army over again to resist the invaders. In April 1804, the French agreed to a treaty, but then they rejected the treaty and sent a new army to France. The French then sent a new army to France. The French then sent a new army to France.

The struggle for freedom continued, however, and later in 1804, the rebels won. They were determined that an enlightened and stable leader like Francisco O'Donnell should govern them. They were determined to reject foreign domination and demand independence from colonial rule.

✎ **Checkpoint** How were slaves instrumental in achieving Haiti's independence?

Mexico and Central America Revolt

The ideas of the Enlightenment and the spirit of the French Revolution spread to Mexico and Central America. Leaders saw the French Revolution as a model of how to overthrow a tyrant and establish a new government. They saw the French Revolution as a model of how to overthrow a tyrant and establish a new government.

Father Hidalgo Cries Out for Freedom Father Hidalgo provided the spark that ignited the Mexican Revolution. On September 16, 1810, he led his parishioners in a revolt against the Spanish crown. He was determined to reject foreign domination and demand independence from colonial rule.

An inspired army of poor peasants and Native Americans rallied to Hidalgo's cause and fought the battles of the Mexican War of Independence. They were determined to reject foreign domination and demand independence from colonial rule.

After some early successes, the rebels faced growing opposition. The rebels were not organized. The rebels were not organized. The rebels were not organized.
