

Directions: *Work on these sheets. A random digit table is attached.*

Part 1: Multiple Choice. *Circle the letter corresponding to the best answer.*

- In a large population of college students, 20% of the students have experienced feelings of math anxiety. If you take a random sample of 10 students from this population, the probability that exactly 2 students have experienced math anxiety is

 - 0.3020
 - 0.2634
 - 0.2013
 - 0.5
 - 1
 - None of the above
- Refer to the previous problem. The standard deviation of the number of students in the sample who have experienced math anxiety is

 - 0.0160
 - 1.265
 - 0.2530
 - 1
 - .2070
- In a certain large population, 40% of households have a total annual income of \$70,000. A simple random sample of 4 of these households is selected. What is the probability that 2 or more of the households in the survey have an annual income of over \$70,000?

 - 0.3456
 - 0.4000
 - 0.5000
 - 0.5248
 - The answer cannot be computed from the information given.
- A factory makes silicon chips for use in computers. It is known that about 90% of the chips meet specifications. Every hour a sample of 18 chips is selected at random for testing. Assume a binomial distribution is valid. Suppose we collect a large number of these samples of 18 chips and determine the number meeting specifications in each sample. What is the approximate mean of the number of chips meeting specifications?

 - 16.20
 - 1.62
 - 4.02
 - 16.00
 - The answer cannot be computed from the information given.

Chapter 8a Ap Stats Test Answers

Susan A. Nolan, Thomas Heinzen

Chapter 8a Ap Stats Test Answers:

Essentials of Statistics for the Behavioral Sciences Susan A. Nolan, Thomas Heinzen, 2010-02-12 Enables students to learn how to choose the appropriate statistical test understand its conceptual significance and calculate each statistics The text teaches students to apply concepts and formulas to statistical questions that they will encounter both in their academic lives and outside the classroom *Statistics for the Behavioral Sciences* Susan A. a statement of conclusions drawn Once the free response questions have been graded by all of the readers the scores are converted The open ended questions count as 75% of the free response score the investigative task question counts as 25%

SCORING THE MULTIPLE CHOICE SECTION For the multiple choice section use this formula to calculate your raw score
Number Right Number Wrong \times 1 4 Raw Score round to the nearest whole number Note Do not include unanswered questions in the formula

SCORING THE FREE RESPONSE QUESTIONS For the free response section use this formula to calculate your raw score
5 Open Ended Questions 75% 1 Investigative Task Question 25% Raw Score

THE COMPOSITE SCORE To obtain your composite score use the following method
Multiple Choice Raw Score Free Response Raw Score Raw Score

AP grades are interpreted as follows
5 extremely well qualified
4 well qualified
3 qualified
2 possibly qualified and
1 no recommendation

SCORES THAT RECEIVE COLLEGE CREDIT AND OR ADVANCED PLACEMENT Most colleges grant students who earn at least a 3 college credit and or advanced placement You should check with your school guidance office about specific college requirements

STUDYING FOR YOUR AP EXAMINATION It is never too early to start studying The earlier you begin the more time you will have to sharpen your skills Do not procrastinate Cramming is not an effective way to study since it does not allow you the time needed to learn the test material It is very important for you to choose the time and place for studying that works best for you Some students may set aside a certain number of hours every morning to study while others may choose to study at night before going to sleep Other students may study during the day while waiting on a line or even while eating lunch Only you can determine when and where your study time will be most effective But be consistent and use your time wisely Work out a study routine and stick to it When you take the practice exam s try to make your testing conditions as much like the actual test as possible Turn your television and radio off and sit down at a quiet table free from distraction Make sure to time yourself Complete the practice test s score your test s and thoroughly review the explanations for the questions you answered incorrectly However do not review too much during any one sitting Concentrate on one problem area at a time by reviewing the question and explanation and by studying our review s until you are confident that you completely understand the material Since you will be allowed to write in your test booklet during the actual exam you may want to write in the margins and spaces of this book when practicing However do not make miscellaneous notes on your answer sheet Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering Keep track of your scores This will enable you to gauge your progress and discover general weaknesses in particular sections You should carefully study the reviews that cover the topics causing you difficulty as this will build your skills in those areas To get the most out of your studying time we recommend that you follow the Study Schedule It details how you can best budget your time

TEST TAKING TIPS Although you may be unfamiliar with tests such as the Advanced Placement exams there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties Listed below are ways to help yourself become accustomed to the AP exam some of which may also be applied to

other standardized tests Become comfortable with the format of the AP Examination in Statistics When you are practicing to take the exam s simulate the conditions under which you will be taking the actual test s You should practice under the same time constraints as well Stay calm and pace yourself After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual test much more confidently Know the directions and format for each section of the exam Familiarizing yourself with the directions and format of the different test sections will not only save you time but will also ensure that you are familiar enough with the AP exam to avoid anxiety and the mistakes caused by being anxious Work on the easier questions first If you find yourself working too long on one question make a mark next to it in your test booklet and continue After you have answered all of the questions that you can go back to the ones you have skipped Use the process of elimination when you are unsure of an answer If you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess If you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer Questions not answered will not be counted Be sure that you are marking your answer in the oval that corresponds with the correct item in the test booklet Since the multiple choice section is graded by machine marking the wrong answer will throw off your score

5 Steps to a 5: AP Statistics 2022 Jared Derksen, DeAnna Krause McDonald, 2021-08-04 MATCHES THE LATEST EXAM Let us supplement your AP classroom experience with this easy to follow study guide The immensely popular 5 Steps to a 5 AP Statistics guide has been updated for the 2021 22 school year and now contains 3 full length practice exams both in the book and online that reflect the latest exam Access to a robust online platform Comprehensive overview of the AP Statistics exam format Hundreds of practice exercises with thorough answer explanations Review material and proven strategies specific to each section of the test A self guided study plan including flashcards games and more online
