Essential Community Medicine R.J. Donaldson,2012-12-06 This basic textbook of Community Medicine which includes descriptions of the related social services is intended for a wide range of readers who require knowledge and understanding of the essential aspects of the subject These include undergraduate medical students

and qualified doctors who are engaged in postgraduate courses of study or training schemes particularly those in community medicine and general practice When writing this book we also had in mind the needs of students of nursing at all levels at a time when an increasing emphasis on the community is being reflected in the content of curricula and the composition of examination papers It is our view that this account of community medicine will also be of value to established practitioners community physicians community health doctors senior nurses and health visitors who wish to consolidate or update their knowledge The growing involvement of the professions in the management and planning of health services means that many general practitioners hospital doctors and nurses are being called upon to take a population perspective and to become acquainted with many of the concepts and issues discussed in this book In addition there are those professionals who work closely with medicine and nursing and have a common concern in providing care and promoting prevention groups such as social workers and health education personnel For all these reasons we would hope that many groups might read the book and find it useful

A Practical Approach to Pulmonary Medicine James Joseph O'Connell, Joel B. Karlinsky, 1997

Textbook of Pulmonary and Critical Care Medicine Vols 1 and 2 SK Jindal, PS Shankar, Suhail Raof, Dheeraj

Gupta, 2011-01-31 This book published in two volumes Both volume divided in twenty three sections all sections and chapters are most important The Textbook of Pulmonary and Critical Care Medicine also offers a unique exposure to the problems in many parts of the world Tuberculosis the number one treatable condition has been extensively covered and special topics such as multi drug resistance directly observed therapy TB prevention nonpharmacologic approaches and extrapulmonary tuberculosis are particularly relevant Many countries are facing a growing burden of noncommunicable respiratory diseases They have become the second leading cause of death after injuries and their impact on indirect costs such as loss of work and home productivity is enormous These problems are addressed and measures of prevention such as smoking cessation are included Other special challenges including topics such as indoor and outdoor air pollution climate change poisoning with pesticides snakebite toxicity pulmonary manifestations of tropical infections and industrial accidents such as the tragedy seen in Bhopal Madhya Pradesh with methyl isocyanate have been well covered However as globalization flattens the playing field and countries leap to industrialization cultural beliefs natural resources climate and geography have slowed the pace of development in many parts of the world Poverty leads to malnutrition homelessness lack of education and poor access to health care Overcrowded cities and rural underdevelopment are other challenges that impact health in the various parts of the world Moreover epidemics of HIV drug abuse and smoking addiction take a greater toll on the population Yes the world is flat but the terrain is filled with mountains and valleys and local problems demand local solutions And these local problems need to be explored and presented with a scholarly perspective The Textbook of Pulmonary and Critical Care Medicine has successfully incorporated these sociodemographic factors into the subject matter The text is well written and the chapters are carefully referenced with subjects found in all traditional pulmonary and critical care textbooks e g airway diseases

interstitial lung disease pleural disease pulmonary neoplasia pulmonary infection sleep and critical care There are several nontraditional sections as well that are practical and especially helpful to the practicing physician These include a section on the symptom approach to lung disease an overview of the pharmacologic agents used to treat lung disease and a comprehensive review of methods in lung diagnosis from the simple history and physical examination to the latest complex tools of interventional pulmonology The textbook is especially unique because of the abundance of illustrations flow charts and tables There are many radiographic and pathologic reproductions that are especially helpful Textbook of Pulmonary and Critical Care Medicine Vols 1 and 2 SK Jindal, PS Shankar, Suhail Raof, Dheeraj Gupta,2011-03-20 Book includes the basic principles of Pulmonology as well as the recent advances in allied clinical sciences relevant to pulmonology Includes valuable inputs on tuberculosis other pulmonary infections environmental and occupational medicine sleep disorders and general systemic diseases affecting the respiratory system Although critical care is relevant for most of the medical and surgical specialties the pulmonologist have a more vested interest than other specialists Assisted respiration which forms the core of most critical care lies in the primary domain of pulmonologists **Essentials of Global Community Health** Jaime Gofin,Rosa Gofin,2011 Health Sciences Professions A Practical Guide to Clinical Teaching in Medicine Kaaren C.
