Good Ideas Guteh H. Sputrats, 2016-05-16 An interesting composition that reflects the hi tech world in macro and startup ecosystem in micro from an external perspective that isn t taken by what is customary in these worlds The author in a succinctly sharp short and accurate way is going against the grain and setting a challenge on some of the strongest and most basic conventions in the startup world breaking paradigms and calling for an extreme modification and sometimes even for the inversion of the existing practice as well as offering a new critical and essential role in the startup world With the vision that the book is presenting and with the insights and conclusions that the author is reaching by mixing logic and intuition and by following the hi tech world for years the author claims that the success rate of startups can be significantly changed If the methodology presented in the book will be implemented and prove itself it will bring a significant change to the hi tech world A must have book for whoever is involved in the startup and hi tech field whether a startup has been started or not or whether the person is part of a team or just thinking of joining this world in some kind of role or has a startup idea Even

those who don't agree with what is written in the book or agree only with parts of it can enjoy it and receive some insights that will stay with them during the establishment, development, marketing, and managing of a startup.
