Ear Drum How do we hear?

- It is called an ear drum because it acts the same way a drum does.
- A very thin piece of skin covers the end of the ear canal.
- It takes the air waves moving through the ear canal and

le ear.

Not Just Your Ears How do we hear?

- While most of you probably thought of your ears right away, one of the most important parts of how we hear is our brains.
- Today we are going to

Our Brain How do we hear?

- Some parts of our brain work on making sense of what people are saying to us.
- A different part focuses on identifying sounds, which sometimes also uses your memory.
- Though we hear things all the time, our brains have to decide what to listen to.

Teach **THIS**

Outer Ear How do we hear?

- The outer ear funnels the sound waves into the ear canal, a tube that runs from the fleshy part on the outside of your head through the bones of your skull to your ear drum.
