What is the Difference Between a World-Loving Human and a World-Betraying Human Meghraj Singh khalsa , This book is a powerful exploration of one of the greatest questions of humanity What truly separates a World Loving Human from a World Betraying Human Theists and atheists may fail to recognize this truth but only a Real Human can truly understand the difference Through deep reflections comparisons and real life lessons this book reveals The values and vision of a World Loving Human truth love peace and humanity The dangers of a World Betraying Human lies hatred greed and destruction The role of families youth and women in shaping humanity s destiny The choice every individual must make Love or Hatred Life or Death This is not just a book it is a wake up call for humanity If we choose love we choose life If we choose hatred we choose death By King of Satyug M S Khalsa *The King of the Digital World* [The Future of Social Epistemology](#) James H. Collier,2015-12-02 *The Future of Social Epistemology* A Collective Vision sets an agenda for exploring the future of what we human beings reimagining our selves and our society want need and ought to know The book examines concretely practically and speculatively key ideas such as the public conduct of philosophy models for extending and distributing knowledge the interplay among individuals and groups risk taking and the welfare state and envisioning people and societies remade through the breakneck pace of scientific and technological change An international team of contributors offers a collective vision one that speaks to what they see unfolding and how to plan and conduct the dialogue and work leading to a knowable and desirable world The book describes and advances an intellectual agenda for the future of social epistemology

The Future of Equality Shlomi Segall,2025-05-15 Philosophers have been preoccupied with the future from time immemorial But for egalitarians the future of humanity constitutes a relatively new challenge The premise of this book is that a complaint based ideal of egalitarianism faces problems when applied to the future For one thing if we suppose that future people are destined to fare better than us say in terms of overall wellbeing then allowing humanity to flourish would then represent a net increase in terms of egalitarian complaints With respect to equality at least it would be better to refrain from bringing new life into being That seems absurd This is the Anti Natalist objection to egalitarianism Second any policy aimed at reducing future inequalities and indeed any population policy at large will in all likelihood affect the identity of those who will be born This familiar Non Identity problem poses unique problems for egalitarianism especially ones of the complaint model Arguably a person cannot have a complaint about being worse off than another when the only other alternative distribution is one in which she does not exist Put differently such a person lacks a standing to complain about this future inequality This

can be referred to as the Non Identity objection or as the Standing objection to egalitarianism This book examines how to evaluate different scenarios for humanity s future from an egalitarian perspective It is argued that planning for the future does require egalitarian considerations but that egalitarianism also needs to be adapted to handle future persons As indicated a key challenge concerns how to evaluate mixed populations containing both necessary and possible persons The book proposes a pluralist approach combining egalitarianism with prioritarianism Prioritarianism itself also suffers unique problems when applied to the future chief among them the Separateness of Persons objection The book attempts to deflect these obstacles and aims to develop a coherent framework that maintains egalitarian principles while appropriately discounting the status of merely possible people Overall the book seeks to advance both our ethical assessment of humanity s future and our understanding of the nature of equality and distributive ethics more generally
