Innovating with Concept Mapping Alberto Cañas, Priit Reiska, Joseph Novak, 2016-08-20 This book constitutes the refereed proceedings of the 7th International Conference on Concept Mapping CMC 2016 held in Tallinn Estonia in September 2016. The 25 revised full papers presented were carefully reviewed and selected from 135 submissions. The papers address issues such as facilitation of learning, eliciting, capturing, archiving, and using expert knowledge, planning, instruction, assessment of deep understandings, research planning, collaborative knowledge modeling, creation of knowledge portfolios, curriculum design, eLearning, and administrative and strategic planning and monitoring.

The Construction of Concept Maps Facilitates the Learning of General College Chemistry John Edward Feldsine, 1987 *Learning, Design, and Technology*

J. Michael Spector, Barbara B. Lockee, Marcus D. Childress, 2023-10-14 The multiple related fields encompassed by this Major Reference Work represent a convergence of issues and topics germane to the rapidly changing segments of knowledge and practice in educational communications and technology at all levels and around the globe. There is no other comparable work that is designed not only to gather vital current and evolving information and understandings in these knowledge segments but also to be updated on a continuing basis in order to keep pace with the rapid changes taking place in the relevant fields. The Handbook is composed of substantive 5 000 to 15 000 words, peer reviewed entries that examine and explicate seminal facets of learning theory, research, and practice. It provides a broad range of relevant topics, including significant developments as well as innovative uses of technology that promote learning performance and instruction. This work is aimed at researchers, designers, developers, instructors, and other professional practitioners.

STEM, Robotics, Mobile Apps in Early Childhood and Primary Education Stamatios Papadakis, Michail Kalogiannakis, 2022-04-21 This book brings together a collection of work from around the world in order to consider effective STEM, robotics, mobile apps education from a range of perspectives. It presents valuable perspectives, both practical and theoretical, that enrich the current STEM, robotics, mobile apps education agenda. As such, the book makes a substantial contribution to the literature and outlines the key challenges in research, policy, and practice for STEM education from early childhood through to the first school age education. The audience for the book includes college students, teachers of young children, college and university faculty, and professionals from fields other than education who are unified by their commitment to the care and education of young children.

Digital Knowledge Maps in Education Dirk Ifenthaler, Ria Hanewald, 2013-11-01 Digital knowledge maps are at a glance visual representations that enable enriching, imaginative, and transformative ways for teaching and learning with the potential to enhance positive educational outcomes. The use of such maps has generated much attention and interest among tertiary education practitioners and researchers over the last few years as higher education institutions around the world begin to invest heavily into new technologies designed to provide online spaces within which to build resources and conduct activities. The key elements of this edited volume will comprise original and innovative contributions to existing

scholarship in this field with examples of pedagogical possibilities as they are currently practiced across a range of contexts It will contain chapters that address theory research and practical issues related to the use of digital knowledge maps in all aspects of tertiary education and draws predominantly on international perspectives with a diverse group of invited contributors Reports on empirical studies as well as theoretical conceptual chapters that engage deeply with pertinent questions and issues raised from a pedagogical social cultural philosophical and or ethical standpoint are included Systematic literature reviews dealing with digital knowledge mapping in education are also an integral part of the volume
