What's Inside

Chapter 0 Introduction When would you want to use D3.js? There is a spectrum of libraries to create charts on the web. On one end, you have easy-to-use basic libraries that will create a standard chart type.

Chapter 1 Making your first chart In this chapter, we make a line chart. Line charts are a great starting place because of their popularity but also because of their simplicity.

Chapter 2 Making a scatterplot When looking at the relationship between two metrics, a scatterplot is a good choice. In this chapter, we show how to create a scatterplot.

Chapter 3 Making a bar chart In this chapter, we cover how to create a histogram, which is a bar chart that shows the distribution of one metric with the metric values on the x-axis and the frequency of values on the y-axis.

Chapter 4 Animations and Transitions When we update our charts, we can animate elements from their old to their new positions. These animations can be visually exciting but more importantly, they have functional benefits.

Chapter 5 Interactions The biggest advantage of creating charts with JavaScript is the ability to respond to user input.

Chapter 6 Making a map Maps are also uniquely good at answering geography-based questions. In this chapter, we'll build a map and learn how to plot values within a location.

Chapter 7 Data Visualization Basics Now that we're comfortable with how to create a chart, we should zoom out a bit and talk about what chart to create.

Chapter 8 Common Charts In this chapter, we talk about common chart types and when to use them.

Chapter 9 Dashboard Design A dashboard is any web interface that makes sense out of dynamic data, and in this chapter, we learn how

to make one Chapter 10 Advanced Visualization Marginal Histogram First we'll focus on enhancing a chart we've already made our scatter plot This chart will have multiple goals all exploring the daily temperature ranges in our weather dataset Chapter 11 Advanced Visualization Radial Weather Chart We talked about radar charts in Chapter 10 For this project we'll build a more complex radar chart Chapter 12 Advanced Visualization Animated Sankey Diagram In this project we'll be simulating real data and creating an animated diagram to engage our viewers Chapter 13 D3 and React What's the best way to draw a chart within React It turns out that there is a fair bit of overlap in functionality between a React and D3 we'll discuss how we can create blazing fast charts using the two together Chapter 14 D3 and Angular In this chapter we show how to create optimized SVG charts using D3 and Angular
