and Middle Eastern brands that translate their English logotypes into Arabic Common products found in the Lebanese
market which include both the English and the Arabic logotypes are snack foods This inclusion of both logotypes is referred
to as duality Snack food brands take two distinct approaches in translating their logotypes Some brands attempt to create an
Arabic logotype translation that is equivalent Al Agha to be original English logotype while others brands create a non
equivalent Al Agha logo design A collection of logos was selected for the following study All of the logos are divided based
upon equivalence or non equivalence Six of the brands are Western including Polo 7up Cheetos Mentos Hershey s and Bugles
Four of the brands are Middle Eastern including Temmy s Fizz Mixy and Jaz Two fictional control brands were also
introduced to the study named Zing and Pop The following thesis combines two different methodological approaches First a
qualitative textual analysis examines the logotypes on both a micro and macro level Second a quantitative study was done on
a Lebanese population of snack food purchasers through the distribution of 80 questionnaires at supermarkets and stores
The aim of the study was to test the Lebanese perception of snack food brands based upon their logotypes equivalence non
equivalence and duality It was hypothesized that equivalence would not be a factor to the Lebanese population and that
duality would be However the findings conclude that some segments of the Lebanese population consider equivalence
relevant while others do not Furthermore some segments prefer to have the logotype only in english while other prefer
