Black people believe that affirmative action programs are unfairly depriving more deserving Whites of jobs and education opportunities The author argues that is a myth For example University admissions data demonstrates that despite affirmative action rhetoric there remains systemic bias against Black students Sociological data on criminal record race and employment found that White people with a criminal record had a better chance of getting a call back than Black people without one Renowned Professor of Social Work Dr Rudolph Alexander Jr analyses many examples which demonstrate that the claim that affirmative action programs have led to unfair discrimination against White people of equal ability is a myth Though not always comfortable reading the book is an important addition to the literature on equality diversity and critical race theory
