Baltz,2025-12-16 Leadership is a lost art Many companies provide what they call Leadership Training but taking a course or participating in a class doesn't make you a leader It doesn't make you a leader any more than taking a class or course at a medical school makes you a doctor or reading about being an airline pilot makes you a pilot And while most would accept that fact we still pretend as if it does We've all seen the Vince Lombardi legendary football coach quote Leaders are not born they're made We've decided it means we can make a leader out of anyone and we can do so whether or not they want to be one It just isn't so I can never become a world class Olympic sprinter No amount of training or practice or coaching will or could ever produce that outcome from me I'm not too broken up about that but I certainly won't waste my time and effort trying to become something I am not nor ever could be It's not exactly the same with becoming a leader but it's also not as easy as most think it is We think Hey give me the title of a manager or VP or CEO and I automatically become a leader But that's not how it works And the people who work under you are the ones who will suffer This book won't make you something you are not If it could I would charge a lot more for it But it can help you be the best you can be and can help true leaders spot other potential leaders by examining how they stack up against these attributes I start with the must-haves and then discuss other more pragmatic aspects of being a manager or leader of people I talk to other leaders and get their insight as well And finally I challenge managers employees and senior leaders with some evergreen New Year's Resolutions Start the journey with an open mind and a willing heart to become a leader without losing your soul *The Chenango County Farm and Home Bureau News* ,1922 Sales Thoughts: Selling at the Next Level Phil Bush and Brett Boston,2014-09-16 Our goal in this book is to dramatically lift your sales game Two reliable studies Harvard and Gallup found that 4% of the sales people in the U.S. sell 94% of the goods and services Other less dire studies indicate that 15% of all sales people are doing 70% of the selling Either way you look at it most sales people are not as good as you are And there is one major reason Lack of planning This book tells you how and what to plan It provides key points on upping your game with tips to extend your longevity as a sales pro Most sales people fail to understand that selling is a long term investment in understanding your customers' needs and investing time in building strong customer relationships You have to demonstrate that your customers are buying more than your product they are buying your expertise and commitment to help them solve problems Read on to learn how to become a trusted business advisor to your clients through some basic sales planning strategies Demonstrating To Win Jan Cocran,2021-01-29 The demonstration or presentation of complex products like technology or medical devices is like leading a person over a treacherous ravine Throughout a demo or presentation your prospect wants to run back to the relative safety
