Cederstrom and Spicer though willing guinea pigs in an extraordinary and sometimes downright dangerous range of techniques and technologies had hitherto undertaken little by way of self improvement They had rarely seen the inside of a gym let alone utilized apps that deliver electric shocks in pursuit of improved concentration But in the course of a year spent researching this book they wore head bands designed to optimize meditation attempted to boost their memory through learning associative techniques and failed to be admitted to MENSA trained for weightlifting competitions wrote what they still hope might become a bestselling Scandinavian detective story enrolled in motivational seminars and tantra sex workshops attended new age retreats and man camps underwent plastic surgery and experimented with vibrators and productivity drugs Andr even addressed a London subway car whilst nearly naked in an attempt to boost attention Somewhat surprisingly the two young professors survived this year of rigorous research Further they have drawn deeply on it to produce a hilarious and eye opening book Written in the form of two parallel diaries Desperately Seeking Self Improvement provides a biting analysis of the narcissism and individual competitiveness that increasingly pervades a culture in which social solutions are receding and individual self improvement is the only option left
