information on today's leading architects and presents their work in an affordable and thoroughly illustrated format. Each book begins with an overview of the architect's style and accomplishments written by a leading architecture critic. Then approximately twenty noteworthy works and projects are discussed by the architect and presented in detail with site plans, drawings, and black and white photographs.

David Chipperfield David Chipperfield, 2004 David Chipperfield Architects. Vol. 1: 1985-2014 / Vol. 2: 2015-2024 David Chipperfield, 2025-09

A richly illustrated new monograph celebrating 40 years of practice through 100 design entries by David Chipperfield Architects. In double volume format, this monograph covers a cross-section of both built and unbuilt work. It highlights several activities led by Pritzker Prize Laureate Sir David Chipperfield throughout his career. Around 100 design entries are accompanied by ten critical essays and a series of articles that have been published over the years by various commentators, including Joseph Rykwert and Barry Bergdoll. Richly illustrated, both volumes feature contributions by renowned visual artists including Candida Höfer, Thomas Struth, and Friederike von Rauch. The monograph is edited by Rik Nys and designed by John Morgan Studio, the same team that produced the David Chipperfield Architects monographs in 2013 and 2018.

David Chipperfield Architects, 2025 David Chipperfield: Reflections on Architectural Practice David Chipperfield, 2026-03-31

A small but mighty compilation of Chipperfield's manifold writings on architectural theory and praxis. Since establishing his office more than four decades ago, British architect David Chipperfield (born 1953) has often turned to writing to make sense of his profession. Operating by turns as theorist, polemicist, and editor, Chipperfield has drawn upon various forms of rhetoric and published across various platforms, including books, articles, and lectures, in order to articulate his vision of an architectural practice that questions accepted truths and embraces the tangible qualities that shape our lives. This compact volume compiles Chipperfield's diverse writings from the entirety of his career. It also features original texts that reveal the architect's personal insights on his practice, as well as a new introduction to his 2023 Pritzker Prize lecture by fellow architect and critic Kenneth Frampton. Subverting the conventional presentation of an architect's career through their built work, this volume testifies to the rigorous thought that drives a generative practice.
