[Contrasting Ideals and Ends in the American and French Revolutions](#) Miguel A. Faria, Jr.,2024-11-26 This book describes momentous events in the American and French Revolutions The American revolutionaries were nationalist patriots who wanted independence from Great Britain and to create a new nation based on the principles of classical liberalism and Natural Rights theory Their goal was the attainment of life liberty and the pursuit of happiness inherent in the God given or Nature derived rights of free men They did not seek to overturn the basic institutions of society as eventually the French revolutionists did when they destroyed churches desecrated tombs and even renamed the months of the year creating a new revolutionary calendar The French revolutionists adopted the revolutionary slogan Libert galit Fraternit but they did not grasp the fact that the leveling of society was incompatible with liberty And regarding fraternity they did not mean the brotherhood of all men because the nobility and common citizens who did not hold the purest aims of Jacobin ideology were exterminated

This work aims to clarify the distinctive character of the French Revolution by tracing the philosophical sources of its rhetoric and comparing it to that of the American Revolution **The A to Z of the French Revolution** Paul R. Hanson, 2007-02-23 The French Revolution remains the most examined event and period in world history Most historians would argue that it was the first modern revolution an event so momentous that it changed the very meaning of the word revolution to its current connotation of a political and or social upheaval that marks a decisive break with the past moving the society in a forward or progressive direction No revolution has occurred since 1789 without making reference to this first revolution and most have been measured against it When revolution shook the foundations of the Old Regime in France shock waves reverberated throughout the western world The A to Z of the French Revolution examines the causes and origins the roles of significant persons crucial events and turning points important institutions and organizations and the economic social and intellectual factors involved in the event that gave birth to the Declaration of the Rights of Man and Citizen the introduction of universal manhood suffrage and the Napoleonic Empire An introductory essay chronology and comprehensive bibliography complement the more than 400 cross referenced dictionary entries making this a great resource for students and history enthusiasts alike [A History of World Societies: From the French revolution to the present](#) John P. McKay, Bennett D. Hill, John Buckler, 1992 **The French Revolution** Frank A. Kafker, James Michael Laux, Darline Gay Levy, 2002 This is an anthology organized around conflicting interpretations of 11 of the most important issues and events of the French Revolution It includes interpretations by contemporary and earlier historians and no one view or school of revolutionary studies is stressed **Johnson V. Edgar**, 1996 [The French Revolution in Culture and Society](#) David G. Troyansky, Alfred Cismaru, Norwood Andrews, 1991-05-30 This volume examines the issue of the timing of cultural change problems of Revolutionary anticipations and reverberations and the relationship between culture politics and society Individual essays combine both old and new approaches ranging from textual analysis to the study of local judicial records from the psychohistorical to the demographic But they all demonstrate the usefulness of linking social and cultural history broadly conceived and of interdisciplinary approaches to the study of events Part One addresses directly the creation of French Revolutionary culture The contributors describe the physical act of dismantling and redefining the culture of the Ancien Regime for revolutionary purposes new conceptions of time and generation relations in Revolutionary rhetoric and law The second part identifies key cultural ingredients from the distant past It reminds us of the extent to which the Revolution employed the huge storehouse of Western culture to create something original Because the creation of a democratic culture implies a crisis of consciousness Part Three brings together a range of investigations into the question of cultural crisis Three essays see the Revolutionary era as engendering psychological dislocation In Part Four social historians reveal the variety of approaches they have taken in trying to understand eighteenth century France The varied contributions exploit the sources that have become the stock in trade of modern social history Poverty crime and population are among the

leading topics in current historiography but military and political institutions are also examined in new ways This edited collection provides new insights into a critical period of world history and will be welcomed by all scholars of the French Revolution and its aftermath
