Fenster, Ph.D., 2009-04-06 Seizing the moment at the attosecond of time is when it is meant to be The author relates to how scientific theories can be integrated into an

overarching explanation of how the macro workings of the infinite universe are intertwined with the micro activities of an individual s activities in the physical world and how this can be blended with the unseen world of spirituality of the universe as coexisting parallel intertwined worlds Science and spirituality are not in opposition to one another but complement each other and provide a more revealing explanation to our fundamental questions of is it meant to be or is it meant to be Besher t In the process of trying to determine the complex concepts implied by meant to be the author explores how one can have a predetermined existence and make free will decisions at the same time Detailing some of the author s own Besher t life experiences he ultimately concludes that one must recognize the spirituality teachings of Kabbalah and current scientific hypothesis of the Unified Theory to understand this complex question of how does free will have a role in predetermination
