Abstract: This study was a stylistic analysis aimed at delineating the different social predicaments embedded in the ten (10) song compositions of GLOC-9. Particularly, it sought to: (1) identify the linguistic levels used in cascading the message and style of the songs along with semantics, lexicogrammar, phonology, and acoustic phonetics; (2) determine the stylistic devices under figures of speech used in the songs; (3) define the thematic levels presented in the songs along with the thematic concept and thematic statement; (4) specify the values or morals conveyed in the songs; and (5) discuss the social predicaments embedded in the songs. To further strategize the data gathering, the researchers used the Hallidayan Systemic-Functional Linguistic Theory in order to extract the different linguistic levels in the songs. Thus, the researchers found out that the social predicaments embedded in the song compositions that depicted social realities were: (1) social injustice; (2) violence; (3) prostitution; (4) drug addiction; (5) corruption; (6) gender discrimination; (7) killing; (8) poverty; and (9) brain drain mentality. Ergo, the results being disseminated in this study may help cultivate social awareness and provide positive implications in terms of transcending the minds of every Filipino, which is a crucial determinant in society and more especially in that of the nation.

Keywords: musical mirroring, stylistic analysis, social predicaments, qualitative, songs.

INTRODUCTION

Stylistics is a field that illuminates the innovative use of language, shedding light on how individuals perceive and employ language in various contexts. Crystal and Davy (1975) define style, which is synonymous with stylistics, as the conscious or unconscious selection of linguistic features from the vast array of possibilities within language. Consequently, stylistics concerns itself with interpretation, as it seeks to unravel the meanings embedded within linguistic expressions. This intersection of language and interpretation underscores the essence of stylistic analysis.

Recognizing songs as literary products capable of eliciting profound emotional responses, the research employs them as primary artifacts for stylistic analysis. Within this framework, the study delves into the stylistic analysis of the song compositions of the renowned Filipino rapper, GLOC-9, born Aristotle Pollisco on October 18, 1977, in Binangonan, Rizal. Recognized as one of the preeminent Filipino rappers of all time, GLOC-9 has carved a niche for himself in the music industry by integrating poignant social commentary into his songs. Notable tracks such as “Bayad ko,” “Dapat Tama,” and “Hari ng Tondo” serve as focal points for stylistic scrutiny in this study.

The songs serve as the conduits for exploring how stylistic features influence the nuanced interpretation of lyrical compositions alongside the navigation of the social predicaments that are indeed rampant in the social landscape (Baker, 2020). Rooted in the social fabric of the Philippines, GLOC-9’s songs traverse themes of injustice, violence, corruption, and poverty, reflecting his acute awareness of prevailing social predicaments.

In this context, this study extends beyond conventional literary texts to encompass songs as potent vehicles for artistic expression and societal critique. By scrutinizing the linguistic

features of the songs, it paved the way for unveiling the underlying social realities embedded within GLOC-9’s compositions. Through a comprehensive exploration of stylistic elements, including linguistic levels, stylistic devices, thematic levels, and moral or values underpinnings, the research endeavors to elucidate the creative process and intentions of the composer. Furthermore, by selecting songs that poignantly portray prevalent social issues, the study aims to evoke emotive responses from listeners while unraveling the multifaceted layers of GLOC-9’s musical repertoire.

RESEARCH METHOD

The research methodology employed in this study was qualitative in nature, aiming for an in-depth exploration of GLOC-9’s song compositions and their reflections on prevalent social predicaments in the Philippines. Central to this methodology was content analysis, which involved a comprehensive examination of the lyrical content of the selected songs. Through stylistic analysis, the study sought to elucidate various linguistic levels, stylistic devices, thematic elements, morals or values, and social predicaments embedded within GLOC-9’s compositions.

The methodological framework was anchored on the Hallidayan Systemic-Functional Linguistic Theory, which facilitated the identification and analysis of linguistic features across multiple levels. Alongside, the data gathering involved the identification of linguistic levels, the determination of stylistic devices, defining thematic levels, specification of values and morals, and the discussion of the social predicaments embedded in the songs. This study was chosen due to its qualitative approach, which allows for a nuanced understanding of GLOC-9’s song compositions and their intricate reflections on the social challenges faced in the Philippines. By employing content analysis and stylistic
