Gender Justice in Islamic Law Musa Usman Abubakar, 2018-06-14 This book seeks to interrogate the classical fiqh formulation on gender and homicide with a view to exploring further the debate on whether the so called gender injustice in Islamic law is a human creation or attributable to the divine sources of the Qur an and Sunnah The study is in response to the increasing criticism of the Islamic criminal law regime and the accusation that it discriminates on the basis of gender It argues that any attempt to critique a religious question through the lens of traditional Western human rights ideals would be resisted by the vast majority of Muslims An examination of the question and any suggested solutions offered would be much more effective if situated within the system they identify with that is to address the question of gender justice deficit from within the Islamic legal tradition Focusing on Nigeria and Pakistan the book achieves this by drawing on classical fiqh literature contemporary literature legislative sources and relevant case law

Reframing Human Rights in a Turbulent Era

Gráinne de Búrca, 2021-03-09 In recent years human rights have come under fire with the rise of political illiberalism and the coming to power of populist authoritarian leaders in many parts of the world who contest and dismiss the idea of human rights More surprisingly scholars and public intellectuals from both the progressive and the conservative side of the political spectrum have also been deeply critical dismissing human rights as flawed inadequate hegemonic or overreaching While acknowledging some of the shortcomings this book presents an experimentalist account of international human rights law and practice and argues that the human rights movement remains a powerful and appealing one with widespread traction in many parts of the globe Using three case studies to illuminate the importance and vibrancy of the movement around the world the book argues that its potency and legitimacy rest on three main pillars First it is based on a deeply rooted and widely appealing moral discourse that integrates the three universal values of human dignity human welfare and human freedom Second these values and their elaboration in international legal instruments have gained widespread even if thin agreement among states worldwide Third human rights law and practice is highly dynamic with human rights being activated shaped and given meaning and impact through the on going mobilization of affected individuals and groups and through their iterative engagement with multiple domestic and international institutions and processes The book offers an account of how the human rights movement has helped to promote human rights and positive social change and argues that the challenges of the current era provide good reasons to reform innovate and strengthen that movement rather than to abandon it or to herald its demise

The Human Rights Council

Damian Etone, 2020-01-27 This book examines the engagement of African states with the United Nations Human Rights Council's Universal Periodic Review UPR mechanism This human rights mechanism is known for its pacific and non confrontational approach to monitoring state human rights implementation Coming at the end of the first three cycles of the UPR the work offers a detailed analysis of the effectiveness of African states engagement and its potential impact It develops a framework which comprehensively evaluates aspects of states UPR engagement such as the pre review national consultation process and implementation of UPR recommendations which until recently have received little attention The book considers the potential for acculturation in engagement with the UPR and unpacks the impact of politics regionalism cultural relativism rights ritualism and civil society The work provides a useful guide for policymakers and international human rights law practitioners as well as a valuable resource for international legal and international relations academics and researchers
