Accounting Information Systems Understanding Business Processes is the fourth edition of the leading local textbook available to students who are required to study a subject on accounting information systems. A well established and widely used textbook, the new edition continues to detail the important role of accounting and information systems in business. As students of accounting are required to possess a firm understanding of accounting information systems and how they impact upon various core business processes, the text explores the business processes that are central to many organisations and explains the many issues associated with accounting information systems. *Towards Digitally Transforming Accounting and Business Processes* Tankiso Moloi, Babu George, 2024-01-11 This conference volume discusses the findings of the iCAB 2023 conference that took place in Johannesburg, South Africa. The University of Johannesburg UJ School of Accounting and Johannesburg Business School in collaboration with Alcorn State University USA, Salem State University USA and Universiti Teknologi Mara Malaysia hosted the iCAB 2023 conference with the aim to bring together researchers from different Accounting and Business Management fields to share ideas and discuss how new disruptive technological developments are impacting the field of accounting. The conference was sponsored by the Association of International Certified Professional Accountants (AICPA/CIMA). *Accounting Information Systems*, 2010 Highlights a range of AIS issues and profiles how real companies implement and utilise various AIS tools. Considine, Macquarie Uni, Alison Parkes, University of Melbourne, Karin Olesen, Auckland University of Technology, Derek Speer, University of Auckland. **Frameworks for Developing Efficient Information Systems: Models, Theory, and Practice** Krogstie, John, 2013-06-30 As advances in technology continue to generate the collective knowledge of an organization and its operations, strategic models for information systems are developed in order to arrange business processes and business data. *Frameworks for Developing Efficient Information Systems: Models, Theory, and Practice* presents research and practices on the advancements in systems analysis and design. These theoretical frameworks and practical solutions are useful for researchers, practitioners, and academicians, as this book aims to bridge the communication gap between business managers and system designers.
