## **Achtung Panzer:**

*Achtung Panzer!* Heinz Guderian, 2012-12-20 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937 the result of 15 years of careful study since his days on the German General Staff in the First World War *Achtung Panzer* argues how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came just two years later he proved it leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age exactly as he had forecast. This first English translation of Heinz Guderian's classic book used as a textbook by Panzer officers in the war has an introduction and extensive background notes by the modern English historian Paul Harris.

**The French Army's Tank Force and Armoured Warfare in the Great War** Tim Gale, 2016-03-16 Recent scholarship has challenged the assumption that military commanders during the First World War were inflexible, backward looking and unwilling to exploit new technologies. Instead a very different picture is now emerging of armies desperately looking to a wide range of often untested and immature scientific and technological innovations to help break the deadlock of the Western Front. Nowhere is this better illustrated than in the development of tank warfare which both the British and the French hoped would give them a decisive edge in their offensives of 1917 and 1918. Whilst the British efforts to develop armoured warfare have been well chronicled there has been no academic study in English on the French tank force the Artillerie Spéciale during the Great War. As such this book provides a welcome new perspective on an important but much misunderstood area of the war. Such was the scale of the French tanks' failure in their first engagement in 1917 it was rumoured that the Artillerie Spéciale was in danger of being disbanded yet by the end of the war it was the world's largest and most technologically advanced tank force. This work examines this important facet of the French army's performance in the First World War arguing that the AS fought the war in as intelligent and sensible a manner as was possible given the immature state of the technology available. No amount of sound tank doctrine could compensate for the fragility of the material, for the paucity of battlefield communication equipment and for the lack of tank infantry training opportunities. Only by 1918 was the French army equipped with enough reliable tanks as well as aircraft and heavy artillery to begin to exercise a mastery of the new form of combined arms warfare. The successful French armoured effort outlined in this study including a listing of all the combat engagements of the French tank service in the Great War highlights a level of military effectiveness within.

*Germany at War* David T. Zabecki, 2014-10-28 Written by experts for use by nonexperts this monumental work probes Germany's Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation's military history. Despite having the best military forces in the world some of the most advanced weapons available and unparalleled tactical proficiency Germany still lost both World Wars. This landmark four volume

encyclopedia explores how and why that happened at the same time examining Germany as a military power from the start of the Thirty Years War in 1618 to the present day Coverage includes the Federal Republic of Germany its predecessor states and the kingdoms and principalities that combined to form Imperial Germany in 1871 The Seven Years War is discussed as are the Napoleonic Wars the Wars of German Unification including the Franco Prussian War World War I World War II and the Cold War In all more than 1 000 entries illuminate battles organizations leaders armies weapons and other aspects of war and military life The most comprehensive overview of German military history ever to appear in English this work will enable students and others interested in military history to better understand the sociopolitical history of Germany the complex role conflict has played in the nation throughout its history and why Germany continues to be an important player on the European continent

**Armor**, 2012

**The Luftwaffe** James S. Corum, 1997 This study provides an appraisal of Germany's air forces from the post World War I era through the early stages of World War II The author demolishes several myths surrounding the Luftwaffe including the belief that they had no ideas beyond the support of ground forces

**Arming Against Hitler** Eugenia C. Kiesling, 1996 In May June 1940 the Germans demolished the French Army inflicting more than 300 000 French casualties including more than 120 000 dead While many historians have focused on France's failure to avoid this catastrophe Eugenia Kiesling is the first to show why the French had good reason to trust that their prewar defense policies military doctrine and combat forces would preserve the nation

**Germany and the Axis Powers from Coalition to Collapse** R. L. DiNardo, 2005 It seemed that whenever Mussolini acted on his own it was bad news for Hitler Indeed the Fuhrer's relations with his Axis partners were fraught with an almost total lack of coordination Compared to the Allies the coalition was hardly an alliance at all Focusing on Germany's military relations with Italy Romania Hungary and Finland Richard DiNardo unearths a wealth of information that reveals how the Axis coalition largely undermined Hitler's objectives from the Eastern Front to the Balkans Mediterranean and North Africa DiNardo argues that the Axis military alliance was doomed from the beginning by a lack of common war aims the absence of a unified command structure and each nation's fundamental mistrust of the others Germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded and because Hitler insisted on separate pacts with each nation Italy and Finland often found themselves conducting counterproductive parallel wars on their own DiNardo's detailed assessments of ground naval and air operations reveal precisely why the Axis allies were so dysfunctional as a collective force sometimes for seemingly mundane but vital reasons a shortage of interpreters for example His analysis covers coalition warfare at every level demonstrating that some military services were better at working with their allies than others while also pointing to rare successes such as Rommel's effective coordination with Italian forces in North Africa In the end while some individual Axis units fought with distinction if not on a par with the vaunted Wehrmacht and helped Germany achieve some of its military aims the coalition's overall military performance was riddled with disappointments Breaking new ground DiNardo's work enlarges our

understanding of Germany's defeat while at the same time offering a timely reminder of the challenges presented by coalition warfare

**21st Panzer Division** Chris Ellis, 2001 The new Spearhead series is designed to look at the cutting edge of war dealing with units capable of operating completely independently in the forefront of battle Each volume in the series examines a historic unit's origins history organization order of battle battle history insignia and markings The 21st Panzer Division gained greatest fame in North Africa but also served in Normandy and on the Russian Front Each Spearhead title includes an evaluation of the unit's combat effectiveness as seen by the unit its opponents and subsequent researchers and a research section including a bibliography and a listing of museums websites re-enactment groups and memorials

**Summary of Heinz Guderian's *Achtung Panzer!*** Everest Media, 2022-06-04T22:59:00Z Please note This is a companion version not the original book

**Sample Book Insights**

- 1 The German invasion of Belgium began on 5 August when 2nd and 4th Cavalry Divisions crossed the Meuse River at Liège and headed toward the Dutch Belgian border They encountered many Belgian troops who were dug in east and south west of Tirlemont The Germans decided to outflank them to the north and the two divisions were temporarily disengaged and pulled back to the area east of Saint-Trond
- 2 The 2nd Cavalry Division marched to Steenvort on the Haelen road and formed up in line ahead The 4th Cavalry Division was ordered to open the passage of the Gette at Haelen with 2nd Cavalry Division leading the charge and securing the ground northwards in the direction of Lummen
- 3 The German cavalry was deployed to attack Haelen and was met by Belgian skirmishers machine guns and batteries The attack was shattered by a hail of defensive fire The German losses were extremely heavy
- 4 The Belgian cavalry division had been positioned behind the Gette between Budingen and Diest with the purpose of holding that sector and pushing reconnaissance patrols in the direction of Tongres Beeringen and Quaedmechelen The villages of Budingen Geet Betz and Haelen had been put in a state of defense and all the bridges over the Gette had been destroyed except for the two at Haelen and Zelck
