,2000    **The Algorithm of Creation** Nicholas Hagger,2023-10-27 2023 SMN Book Prize Winner Significant Contribution  
to its Field The Algorithm of Creation is the last of Nicholas Hagger s quartet on the unity of the universe and humankind and  
follows The Universe and the Light 1993 The One and the Many 1999 and The New Philosophy of Universalism 2009 It offers  
an algebraic formula written out for him by Junzaburo Nishiwaki Japan s T S Eliot in Tokyo in October 1965 that sums up the  
wisdom of the East A A 0 Based on ancient Chinese thinking yin dark yang light the Tao it shows all opposites reconciled in  
the underlying unity of the One Void whose emptiness is also a fullness During a dinner at a conference of leading scientists  
at Jesus College Cambridge in September 1992 watched by Nobel physics prizewinner Roger Penrose Hagger reversed the  
formula to 0 A A when he wrote down the maths for his view of the origin and creation of the universe and showed the first  
two particles emerging from the Void s singularity influenced by the 1992 discovery of ripples in the cosmic microwave  
background radiation and the Presocratic Anaximander of Miletus In this work Hagger shows how this algebraic formula has  
worked as a universal algorithm 0 A A 0 Its many variations have acted as rules that have controlled the creation and  
development of the expanding universe its evolution and the rise of human history religion and science and its ultimate fate  
The formula is behind many of Hagger s works and his application of this algorithm to all human knowledge of the universe  
and all disciplines takes him to a first ever Theory of Everything which is set out at the end the algorithm of Creation  
containing 100 mathematical symbols reflecting all the variations that can be summed up in the above algorithm This  
startling achievement has been made possible by his Universalist cross disciplinary approach which focuses on the  
fundamental oneness of the universe and humankind and the unitive vision    **Advanced Physics** Duncan,1994-01 Based on
