

Chapter 7 Assignment (20 points)

Process: First read the chapters, take your reading quiz, watch the videos, then complete this assignment.

How to use this word document: Please type your response in the specified location for each question. Use appropriate punctuation, grammar, and spelling. Save to your computer or work in google drive (recommended, auto back up). Upload and submit as a word document to Canvas by the due date/time. Please do not use pages (MAC users).

Don't forget to make a post and reply to a post on the discussion board by the due date/time.

Grading: Your work will be graded first by your TA. For each question, you either got it all (full credit), got most but not all (half credit) or got it mostly wrong/left blank (no credit). Your TA will provide general feedback on Canvas. The graduate assistant and I will then grade 30% of all student work in order to check for reliability across graders. Disputes will be resolved through discussion among graders. Once grades are released, you have two business days to email your TA and me with any concerns related to your grade. We are always happy to re-evaluate if you feel you were graded unfairly, and will explain our rationale for the grade you receive. Sometimes we will change our minds about the grade, other times we will maintain the grade. Please recognize that we do our very best, and we work very hard to grade all students fairly. We trust that you will treat us with respect when inquiring about grades.

(20 pts) Chapter 7 Videos: Use the videos to answer the questions. Read the associated chapters first.

1. (2 pts) Using the video of Rayna's language sample, explain each term below
 - a. Overregularization: This is when children translate past tense by using normal speech, for example drank instead of drunk. Rayna showed overregularization when she said, "I just spit on you" instead of saying something like "I just spat on you".
 - b. Social and private speech: Social speech is the type of speech used to converse with others. Private speech is considered talking to yourself or whispering to yourself. Rayna used social speech to communicate to their mom that she spat on her. Private speech was used when Rayna tried to talk to herself after explaining what the word ridiculous means and stated quietly to herself "super funny".
 - c. Metalinguistic awareness: This is when one understands how they use language. Usually, this understanding of one's own language develops around age 5 or 6. Rayna displayed this when she got out of her head and tried to explain what ridiculous meant. She was trying to process and understand what she was saying.

2. (2 pts) Thoughts shape language, and language shapes thought. Explain the one example from the Ted Talk (Boroditsky) video you thought was most interesting about how language shapes thought. How many languages, approximately, do we know exist in the world today?
 - a. Example 1: I found it very interesting that depending on the way you were raised your mind can think differently. I had always thought that people who speak different languages were all thinking of the same things just as the word we each not the items by. I had never considered that someone who wasn't raised to read from left to right

The Stressed Years of Their Lives B. Janet Hibbs, Anthony Rostain, 2019-04-23

From two leading child and adolescent mental health experts comes a guide for the parents of every college and college-bound student who want to know what's normal mental health and behavior, what's not, and how to intervene before it's too late. The title says it all: Chock full of practical tools, resources, and the wisdom that comes with years of experience, *The Stressed Years of Their Lives* is destined to become a well-thumbed handbook to help families cope with this modern age of anxiety. Brigid Schulte, Pulitzer Prize-winning journalist, author of *Overwhelmed*, and director of the Better Life Lab at New America. All parenting is in preparation for letting go. However, the paradox of parenting is that the more we learn about late adolescent development and risk, the more frightened we become for our children, and the more we want to stay involved in their lives. This becomes particularly necessary and also particularly challenging in mid- to late adolescence, the years just before and after students head off to college. These years coincide with the emergence of many mood disorders and other mental health issues. When family psychologist Dr. B. Janet Hibbs's own son came home from college mired in a dangerous depressive spiral, she turned to Dr. Anthony Rostain. Dr. Rostain has a secret superpower: he understands the arcane rules governing privacy and parental involvement in students' mental health care on college campuses, the same rules that sometimes hold parents back from getting good care for their kids. Now these two doctors have combined their expertise to corral the crucial emotional skills and lessons that every parent and student can learn for a successful launch from home to college.

Commentaries on European Contract Law Nils Jansen, Reinhard Zimmermann, 2018-07-12

The book provides rule-by-rule commentaries on European contract law: general contract law, consumer contract law, the law of sale and related services, dealing with its modern manifestations as well as its historical and comparative foundations. After the collapse of the European Commission's plans to codify European contract law, it is timely to reflect on what has been achieved over the past three to four decades and for an assessment of the current situation. In particular, the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law. The present book adopts a broad perspective and an integrative approach. All relevant reference texts from the CISG to the Draft Common European Sales Law are critically examined and compared with each other. As far as the *acquis communie* (the traditional private law as laid down in the national codifications) is concerned, the *Principles of European Contract Law* have

been chosen as a point of departure The rules contained in that document have however been complemented with some chapters sections and individual provisions drawn from other sources primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law In addition the book ties the discussion concerning the reference texts back to the pertinent historical and comparative background and it thus investigates whether and to what extent these texts can be taken to be genuinely European in nature ie to constitute a manifestation of a common core of European contract law Where this is not the case the question is asked whether and for what reasons they should be seen as points of departure for the further development of European contract law
