century the volume explores the rise of the critiques of close reading that are distinguished by their attempts to offer alternative methods distant reading reparative reading just and surface reading and thin description and too close reading Close reading is inescapably central in the field of literary studies and beyond This comprehensive resource will enhance understanding and enrich the reading experience of students and teachers of literature *Reading* Vincent

Quinn,2020-06-01 Why do we read and have we always read in the same way Reading A cultural practice uses a rich variety of literary and visual sources to explore how reading has changed and continues to change in response to new technologies and shifting social pressures Drawing on medieval illustrations classic fiction the art and literature of the Bloomsbury Group and contemporary e culture the book shows that there is no single unchanging thing called reading instead it is something that mutates over time Throughout history ways of reading and theories of reading have been shaped by religious and educational institutions This continues to be true but current approaches to reading are also conditioned by debates over digital culture and social media use Reading A cultural practice re frames these contemporary preoccupations by offering a long view on how our notions of books and reading alter according to social and historical context **Global Learning in**

the 21st Century Tassos Barkatsas,Adam Bertram,2016-10-26 In this 21st century technological and social changes have never been as rapid as before and educative practices must evolve and innovate to keep up What is being done by educators today to prepare future global citizens What are the skills and competencies that will be required by our students What changes in how we approach education might need to be made This book presents a modern focus on some significant issues in teaching learning and research that are valuable in preparing students for the 21st century The book discusses these issues in four sections The first section presents contemporary innovative curriculum and pedagogical practices that are relevant for the 21st century This also includes how social networking has an integrated role within current educative practice The next section then explores issues and current research around motivation and engagement and how these are changing in this era of technological and social change The third section presents debates around inclusion and social contexts both global and local Finally the fourth section explores current discourses in regard to internationalisation and globalisation and how these are being considered in educational research The book is an important representation of some of the work currently being done for these rapidly changing times It will appeal to academics researchers teacher educators educational administrators teachers and anyone interested in preparing students for a modern and globally interconnected world **On the Subject of Drama** David Hornbrook,2002-01-04 Although drama is part of the National Curriculum for English at all Key Stages there is very little guidance for teachers on how it should be integrated into the curriculum Focuses on practical strategies for developing the drama curriculum in primary and secondary schools Provides a mix of theoretical and practical foundations Complements Education and Dramatic Art

New Critical Nostalgia Christopher Rovee,2024-01-02 New Critical Nostalgia weighs the future of literary study by reassessing its past It tracks today s

impassioned debates about method back to the discipline's early professional era when an unprecedented makeover of American higher education with far-reaching social consequences resulted in what we might call our first crisis of academic life. Rovee probes literary study's nostalgic attachments to this past by recasting an essential episode in the historiography of English: the vigorous rejection of romanticism by American New Critics in the new light of the American university's tectonic growth. In the process, he demonstrates literary study's profound investment in romanticism and reveals the romantic lyric's special affect: nostalgia as having been part of English's professional identity all along. *New Critical Nostalgia* meticulously shows what is lost in reducing mid-century American criticism and the intense, quirky, and unpredictable writings of central figures such as Cleanth Brooks, Josephine Miles, and W. K. Wimsatt to a glib monolith of New Critical anti-romanticism. In Rovee's historically rich account, grounded in analysis of critical texts and enlivened by archival study, readers discover John Crowe Ransom's and William Wordsworth's shared existential nostalgia, witness the demolition of the immature Percy Shelley in the revolutionary textbook *Understanding Poetry*, explore the classroom give-and-take prompted by the close reading of John Keats, consider the strange ambivalence toward Lord Byron on the part of formalist critics and romantic scholars alike, and encounter the strikingly contemporary quantitative studies by one of the mid-century's preeminent poetry scholars, Josephine Miles. These complex and enthralling engagements with the romantic lyric introduce the reader to a dynamic intellectual milieu in which professionals with varying methodological commitments, from New Critics to computationalists working in radically different academic locales from Nashville and New Haven to Baton Rouge and Berkeley, wrangled over what it means to read with nothing less than the future of the discipline at stake. *Literary Theory* Terry Eagleton, 2011-11-30. A quarter of a century on from its original publication, *Literary Theory: An Introduction* still conjures the subversion, excitement, and exoticism that characterized theory through the 1960s and 70s when it posed an unprecedented challenge to the literary establishment. Eagleton has added a new preface to this anniversary edition to address more recent developments in literary studies, including what he describes as the growth of a kind of anti-theory and the idea that literary theory has been institutionalized. Insightful and enlightening, *Literary Theory: An Introduction* remains the essential guide to the field. 25th Anniversary Edition of Terry Eagleton's classic introduction to literary theory. First published in 1983 and revised in 1996 to include material on developments in feminist and cultural theory. Has served as an inspiration to generations of students and teachers. Continues to function as arguably the definitive undergraduate textbook on literary theory. Reissue includes a new foreword by Eagleton himself reflecting on the impact and enduring success of the book and on developments in literary theory since it was first published. *Writing and Reading Differently* George Douglas Atkins, Michael L.
