Hymns and Constructions of Race Erin Johnson-Williams, Philip Burnett, 2024-02-07 Hymns and Constructions of Race Mobility Agency De Coloniality examines how the hymn historically and today has reinforced negotiated and resisted constructions of race It brings together diverse perspectives from musicology ethnomusicology theology anthropology performance studies history and postcolonial scholarship to show how the hymn has perpetuated generated and challenged racial identities The global range of contributors cover a variety of historical and geographical contexts with case studies from China and Brazil to Suriname and South Africa They explore the hymn as a product of imperialism and settler colonialism and as a vehicle for sonic oppression and or resistance within and beyond congregational settings The volume contends that the lived tradition of hymn singing with its connections to centuries of global Christian mission is a particularly apt lens for examining both local and global negotiations of race power and identity It will be relevant for scholars interested in religion music race and postcolonialism

Blake Set to Music A Bibliography of Musical Settings of the Poems and Prose of William Blake by Donald Fitch offers an extensive and meticulously compiled reference work detailing the musical interpretations of William Blake's poetry What began as a casual search in 1976 to fulfill a request for Blake settings for male chorus soon turned into a comprehensive project revealing a surprising gap in musical bibliography While Shakespeare and other poets had well documented musical settings Blake's work had no such resource until now Fitch's research uncovers a fascinating trend the use of Blake's poetry in musical compositions is largely a 20th century phenomenon though it has roots in the late 19th century From Blake himself reportedly singing his poems to original tunes to early settings by musicians like Mary Carmichael in 1876 Fitch traces how Blake's works captured the imagination of composers The bibliography spans amateur and professional musicians encompassing settings for solo voice choirs chamber ensembles and orchestras The book highlights over 250 musical settings of Blake's *The Lamb* making it the most popular choice among composers while other well loved poems like *The Tyger* and *Spring* also appear frequently Interestingly it also explores Blake's influence beyond the

English speaking world particularly in post World War II compositions by Scandinavian Russian and European composers Fitch s bibliography not only provides a rich resource for scholars musicians and Blake enthusiasts but also charts a cultural shift As musical tastes evolved so too did the appreciation for Blake s poetic depth with his works being embraced by an ever widening range of composers across the globe This bibliography stands as an essential guide to the diverse and evolving relationship between Blake s visionary poetry and the world of music This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 The New Grove Dictionary of Music and Musicians: Claudel to Dante Stanley Sadie,2001 **Catalog of Copyright Entries** ,1928 *Eve: the philosophy of her fatherhood being in Adam* Harry Alfred Long,1875 Henscratches and Flyspecks Pete Seeger,1973 Music, Books on Music, and Sound Recordings ,1980 *Musical News and Herald* ,1924 **Musical News** ,1906 **Catalog of Copyright Entries.
