SWING TRADING THE BEST STRATEGY FOR BEGINNERS Swing trading is considered to be a very active trading strategy This is because trading time is not as strict as in other types of trading A trader s interest is on only capturing a swing that is available in the stock market Once they capture it they are sure that they headed for success which comes in terms of profits made in the stock market So many traders prefer this method of trading since they have the freedom to trade at any given time They do not have to use all their time studying the charts for them to know the market patterns The swingers can buy or sell their stocks at any time Most swing traders have been in this business for a long time which makes them know all the strategies they apply in order for them to avoid losses A beginner would be required to make sure that they take their time to study swing trading in order for them to be able to know how it works It is however important for any trader to ensure that they have discretionary trading capital This is the type of capital that is invested in the market It does not bring in profits immediately so a new trader needs to know that they cannot get it any time they want it before investing This will help in ensuring that they do not invest it with high expectations Any beginner also needs to ensure that they have a broker who is not expensive He will be responsible for making sure that they place all the trades that belong through A new trader should also ensure that they how to choose the best stock They should also be in a position to read the stock market charts which will help them in knowing how the market is fairing They also need to learn about risk management strategies which will help them when they want to recover from losses Every swing trader needs to ensure that they aggressive enough for them to be successful in their trading journey They need to learn all the skills and expertise required in trading With this knowledge they will be able to take risks that they are almost sure that they will make profits from it In this book you are going to learn about all the swing trading secrets and how to apply them when trading When you follow all the guidelines you will be sure to succeed in swing trading Are you ready to get started with trading Great because in this book you will learn

In the third part of the series on Swing Trading using the 4 hour chart the Heikin Ashi Trader treats the question on where the stop should be. Once a trader stops introducing stops he will discover that his hit rate will worsen. However by doing this he gains full control of the trade management. Stops are therefore not unavoidable but remain an integral part of a trading system that is profit oriented.
