1 Simon Glendinning,2021-07-14 Europe is inseparable from its history That history has been extensively studied in terms of  
its political history its economic history its religious history its literary and cultural history and so on Could there be a  
distinctively philosophical history of Europe Not a history of philosophy in Europe but a history of Europe that focuses on  
what in its history and identity ties it to philosophy In the two volumes of Europe A Philosophical History The Promise of  
Modernity and Beyond Modernity Simon Glendinning takes up this question telling the story of Europe s history as a  
philosophical history In Part 1 The Promise of Modernity Glendinning examines the conception of Europe that links it to ideas  
of rational Enlightenment and modernity Tracking this self understanding as it unfolds in the writings of Kant Hegel and  
Marx Glendinning explores the transition in Europe from a conception of its modernity that was philosophical and religious to  
one which was philosophical and scientific While this transition profoundly altered Europe s own history Glendinning shows  
how its self confident core remained intact in this development But not for long This volume ends with an examination of the  
abrupt shattering of this confidence brought on by the first world wide war of European origin and the imminence of a  
second The promise of modernity was in ruins Nothing for Europe would ever be the same again Part 2 Beyond Modernity is
