## Finite Mathematics: for Business Economics, Life Sciences and Social Sciences.

Barnett, Ziegler & Byleen, 13th Ed., Prentice Hall.

The eBook is available online on the MyMathLab website.

ISBN: 9780321947468 or 9780321947628

### Catalog Description:

Applications of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value.

### Course Learning Outcomes:

The student will:

- Apply elementary functions, including linear, quadratic, polynomial, rational, logarithmic, and exponential functions to solving real-world problems.
- Solve mathematics of finance problems, including the computation of interest, annuities, and amortization of loans.
- Apply basic matrix operations, including linear programming methods, to solve application problems.
- Demonstrate fundamental probability techniques and application of those techniques, including expected value, to solve problems.
- Apply matrix skills and probability analyses to model applications to solve real-world problems.
