Microprocessor and Interfacing Techniques Atul P. Godse, Deepali A. Godse, 2011      The Best of COMVEC 2016 Select Technical Papers from the SAE Commercial Vehicle Engineering Congress Kevin Jost, Corina Sandu, Ryan Gehm, 2016-09-24

This special collection highlights some of the best technical papers that represent the breadth of the entire technical program. Leading industry perspectives are reflected by the corporate contributions that are included in this group along with a specific focus on connectivity, the theme of the 2016 event. The commercial vehicle industry has always been focused on improving efficiency. These ten characteristic offerings present cutting edge trends, technologies, and solutions that provide greater benefit and the application of knowledge to solve problems and guide future innovation. These studies are presented by experts from industrial, governmental, and academic partners on topics that include Autonomous commercial vehicles, Computational fluid dynamics and aerodynamics for heavy duty on road applications, Fuel and emissions efficiency of medium duty powertrain configurations, Intelligently controlled air suspension systems, Improving total cost of ownership by gains in thermal efficiency, New simulation and testing techniques enabling next generation commercial vehicle technology. The leadership team has focused on bringing in a broad mixture of participants to COMVEC to discuss current technologies and the future challenges of the commercial vehicle industry. This first of its kind special publication draws on the strength of the event's program and features ten of the best technical papers from the SAE International Congress.
