International Conference on Remote Sensing and Wireless Communications (RSWC 2014) John

Kong,2014-02-19 International Conference on Remote Sensing and Wireless Communications RSWC 2014 will be held from February 22nd to 23rd 2014 in Shanghai China RSWC 2014 will bring together top researchers from Asian Pacific areas North America Europe and around the world to exchange research results and address open issues in all aspects of Remote Sensing and Wireless Communications The RSWC 2014 welcomes the submission of original full research papers short papers posters workshop proposals tutorials and industrial professional reports Digital Review of Asia Pacific 2007/2008

Idrc,2008-01-07 The biennial Digital Review of Asia Pacific is a comprehensive guide to the state of practice and trends in information and communication technologies for development ICT4D in Asia Pacific This third edition 2007 2008 covers 31 countries and economies including North Korea for the first time Each country chapter presents key ICT policies applications and initiatives for national development In addition five thematic chapters provide a synthesis of some of the key issues in ICT4D in the region including mobile and wireless technologies risk communication intellectual property regimes and localization The authors are drawn from government academe industry and civil society providing a broad perspective on the use of ICTs for human development Multimedia and Interactive Digital TV: Managing the Opportunities Created by Digital Convergence

Pagani, Margherita,2000-01-01 Addressing the issues that managers in the multimedia industry have confronted while developing and implementing this innovative technology this book focuses on the latest research and findings in digital television technologies Covered are the major issues surrounding digital convergence including the digital metamarket and new digital media devices and their potential for IT convergence at the macro level Also addressed are multimedia and interactive digital television and the economic implications of these technologies Additionally the managerial implications of interactive digital television are covered including branding strategies for digital television channels and the critical role of content media management **Radio Receivers for Systems of Fixed and Mobile Communications**

Vasily V. Logvinov, Sergey M. Smolskiy,2022-05-13 The textbook acquaints the reader with the architecture of receivers of analog and digital radio systems helps to study the stages of designing a modern radio receiver and reveals the reasons and methods for its effective operation in networks for various purposes Particular attention is paid to the methods of generating and processing signals in the receivers of digital systems with multiple access which make it possible to provide data transfer rates close to the maximum possible according to Shannon As a textbook for students studying methods of optimal signal reception the book will also be useful to specialists in the field of telecommunications involved in the development of radio receivers The book shows how the development of theoretical circuitry and integrated technologies led to the active introduction of algorithmic methods for signal processing changed both the design of receivers and the methods of forming the information flow in free space MIMO beamforming The creation of a global 5G network based on heterogeneous

networks puts forward new requirements for the architecture of receivers which are determined by the requirements to achieve high data rates low time delays or use in networks with coordinated multipoint transmission and reception CoMP To consolidate the knowledge gained the book includes a complete set of materials for online classes including questions and answers a guide to solving problems for each chapter and computer modeling units of receivers in the MicroCAP environment based on preliminary calculations *Chinese Standard. GB; GB/T; GBT; JB; JB/T; YY; HJ; NB; HG; ... , Scientific and Technical Aerospace Reports* ,1993 *Mobile Radio Channels* Matthias Pätzold,2011-10-13 Providing a comprehensive overview of the modelling analysis and simulation of mobile radio channels this book gives a detailed understanding of fundamental issues and examines state of the art techniques in mobile radio channel modelling It analyses several mobile fading channels including terrestrial and satellite flat fading channels various types of wideband channels and advanced MIMO channels providing a fundamental understanding of the issues currently being investigated in the field Important classes of narrowband wideband and space time wireless channels are explored in detail with descriptions of efficient simulation methods for mobile radio channels being central Strong emphasis is placed on the detailed origin of the presented channel models and a high degree of mathematical unity is conveyed Using the described channel models the reader can evaluate the performance of wireless communication systems under propagation conditions which are typical for multipath channels in various environments Introduces the fundamentals of stochastic and deterministic channel models Explores the modelling and simulation of both wideband and narrowband mobile radio channels as well as several classes of MIMO channels Describes general concepts including geometrical reference and simulation models Discusses several methods for the modelling of given Doppler delay and angular profiles Elaborates on methods for the design analysis and realisation of efficient channel simulators Examines techniques for the development of fast channel simulators Provides links for downloading MATLAB programs enabling the simulation and analysis of the mobile fading channels models presented on the companion website <http://www.wiley.com/go/paetzold> **Algorithms and Protocols for Wireless and Mobile Ad Hoc Networks** Azzedine Boukerche,2009 Focuses on several aspects of wireless ad hoc networks particularly algorithmic methods and distributed computing with mobility and computation capability This book provides the crucial building foundation for the design and construction of the future generation of ad hoc networks *Co-existence of Digital Television Broadcasting Networks and Mobile Communication Systems* ,2015 *International Conference on 3G Mobile Communication Technologies* ,2000 **World Communication Report** Lotfi Maherzi,Unesco,1997 The digital revolution and converging technologies have helped transform the economics of information This report describes the impact of the new information technologies on the workplace the media print and audio visual culture and intellectual property *Journal of the Communications Research Laboratory* ,2001 *Global Networking '97* Philip Enslow,Pete Desrochers,Irene Bonifacio,1997 The Global Networking 97 is published in two volumes Attaining the full positive impact of global networking
