Reader comments I had to force myself to put it down and go to sleep a few times This is a romance novel for people who don t usually read romances I am thoroughly hooked Great descriptive work allowed me to envisage the stark beauty of the West Texas location *Quail Fried Rice* is a romance novel written in a somewhat literary style outside the usual romance formula The story follows Tori Reed and Elena Rios talented smart and beautiful women as they transition their lives away from big cities to the pace and culture of a small town in West Texas Readers join their journey as they create new lives for themselves in the midst of grief loss significant change and the pressures of societal expectation The result is an artful narrative of discovery set within the sparse beauty of the desert landscape
