Glenny takes us on a journey through the new world of international organised crime For three years he has been recording the stories of gun runners in Ukraine money launderers in Dubai drug syndicates in Canada cyber criminals in Brazil racketeers in Japan and many more During his investigation of the dark side he has spoken to countless gangsters policemen and victims of organised crime while also exploring the ferocious consumer demand for drugs trafficked women illegal labour and arms across five continents The journey begins with an appalling and inexplicable murder in England s stockbroker belt and continues with stories that are often horrifying sometimes inspiring usually bizarre and occasionally funny But together they build a breathtaking picture of the shadow economy that has grown so fast that it may now account for about 20% of the world s GDP Usually the preserve of sensationalist reporting in the tabloid press organised crime has seeped into our lives in so many ways and often without our knowledge This consistently riveting account unveils the nature of crime in today s world but it also offers profound insights into the pitfalls of a globalisation where the rules dividing the legal from the illegal are often far from clear McMafia unpicks the nexus of crime politics and money worldwide which have become entangled and interdependent in entirely novel forms since the 1980s It argues that conventional policing methods are no longer appropriate to deal with a problem whose roots lie in global poverty and the ever widening divisions between rich and poor

the Balkans Many outside observers in particular among the Albanians neighbours in the Balkans see it that way and fear its destabilising consequences but none of the contributors to this Chaillot Paper finds this scenario convincing The core of the Albanian national question today is Kosovo an issue that has the power to unite Albanians in the Balkans and in the sizeable diaspora communities spread across the globe While the answer for Albanians is independence for Kosovo beyond that views diverge It seems that only a minority of Albanians remain committed to the project of Pan Albanian political unification Most Albanians are fully aware of the diversity of interests of the various Albanian communities in the Balkans who have lived in different states over the past century The end of communism made it much easier for Albanians to keep in contact with each other but this did not lead to greater national cohesion The dramatic high politics of the Kosovo issue tends to obscure the fact that for most Albanians the most urgent questions today are not national ones at all but questions of economic underdevelopment unemployment the quality of democratic governance political corruption and criminality and the emigration of large numbers of the brightest and best of the younger generation None of these challenges is unique to the Albanians but they possess a particular asset in their young diaspora in the West closely linked via the internet with young democracy activists in the Albanians Balkans homelands This new generation of Albanians aims to leap out of the isolation and introversion of traditional village and clan based politics to form a new post modern transnational political community committed to building democracy within their states and across them
