**Practical Approaches to Agile Project Management** Misra, Sanjay, Jadeja, Rajendrasinh, Mittal, Mohit, 2024-05-30. Amidst the relentless pace of the contemporary business landscape, information technology (IT) projects grapple with an escalating challenge: the need to deliver solutions swiftly, adapt to evolving customer demands, and create value within the ever-shifting dynamics of the market. In this demanding environment, the traditional project management paradigms often fall short, necessitating a shift towards methodologies that embody flexibility, customer collaboration, and iterative development. Herein lies the crux of the issue faced by modern IT projects. *Practical Approaches to Agile Project Management* is a guide in the tumult of IT project complexities. This book provides a comprehensive solution to the complexities of contemporary project management by delving into topics such as alternative pricing models and the alignment of organizational cultures in IT partnerships, making it an indispensable resource for professionals, academics, and students navigating the domains of business information technology or project management. Primarily aimed at IT professionals involved in project management and service delivery, this book caters to a broad spectrum of individuals, including IT Project Managers, Consultants, Entrepreneurs, and Executives at IT Service Firms. Additionally, it extends its value to Business Leaders undertaking IT-enabled transformations and Academic Researchers delving into the intersection of agile methodologies and IT service delivery. From prioritization strategies for IT Project Managers to frameworks for consultants, entrepreneurs, and executives, this book addresses the diverse needs of its readership, offering practical, evidence-based insights to optimize IT service delivery across various organizational contexts.

**Informationweek**, 2003. *Optimized Framework for High-Speed Object Detection in Badminton Using Deep Learning* Ashokkumar Kulandasamy, 2025-02-18. Research Paper, undergraduate from the year 2024 in the subject Engineering Computer Engineering grade Graduate course Graduate B.E. language English. Abstract: Object detection is an important task in sports analysis, particularly in badminton, where the high-speed motion of the shuttlecock can make it challenging to detect. Here, we suggest a badminton high-speed object detection system using YOLO, a real-time object detection model. Our system is trained on a dataset of badminton

images and videos along with corresponding object annotations The performance of our system is evaluated using several metrics including mean average precision precision recall F1 score and speed The results show that our system can achieve high accuracy and real time performance making it suitable for use in badminton analysis applications Our system can be used to detect and track the shuttlecock in real time providing valuable insights into the game such as the speed and trajectory of the shuttlecock which can be used to improve the performance of players and coaches Conference Record ,1989 Event Processing: Designing IT Systems for Agile Companies K. Mani Chandy,W. Roy Schulte,2009-09-22 How to implement effective event processing solutions Business people and IT professionals understand well the benefits of corporate agility and fast response to emerging threats and opportunities However many people are less familiar with the techniques now available to help accomplish those aspirations Event processing has emerged as the key enabler for situation awareness and a set of guiding principles for systems that can adapt quickly to shifts in company and market conditions Written by experts in the field this prescriptive guide explains how to use event processing in the design of business processes and the systems that support them Event Processing Designing IT Systems for Agile Companies covers The role of event processing in enabling business dashboards and situation awareness Types of event processing applications and their costs and benefits How event driven architecture EDA complements conventional request driven SOA How to implement event processing without disrupting existing applications *Infrared Systems and Components III* Robert L. Caswell,1989 **LBM Journal** ,2007 **Identification, Modelling and Simulation** International Association of Science and Technology for Development,1987 **Understanding Enterprise SOA** Eric Pulier,Hugh Taylor,2005-11-20 Using a single continuing case study as the vehicle to carry its story this book shows how to realize business objectives in implementing enterprise SOAs It has a feature that will be welcomed by readers weary of vendor speak Facilities Manager ,1999 **Live Stock Journal** ,1902 **California Management Review** ,2011 **Duroc Bulletin and Live Stock Farmer** ,1921
