more enjoyable and invigorating run as opposed to a long arduous and grueling one which one would you choose? Hopefully you chose the first option because this is what the whole concept behind 5k Training for Beginners is all about. Here are 4 reasons why you should choose this running book: You'll be able to successfully and comfortably run a 5k at the end of your training; you'll have accomplished something that most people only think about doing; This program will help you lose weight quickly, build muscle and tone your body; By committing to something like this, the chances are as a side effect you'll get in to the best shape of your life; You'll radically improve your health; Keep up with your training and you'll have more energy; be thinner, happier and live longer; you'll just feel great most of the time; Supercharge your energy levels on demand; You'll know exactly how to create your own feel good factor which you can turn on and off like a tap; This program has been designed for beginners and that's the way it's intended; but if you're an experienced runner you'll learn a few things to help you to get better, faster and reduce the amount of time you need to spend running and jogging; No grueling or tedious long distance running needed; AND no special equipment required; Here are some more of the secrets you'll learn inside: How the biggest mistake that most new runners make is to set off at the beginning of their run like a dog out of the traps, way too fast; Meaning within a short distance they need to stop because they're too tired and breathless to carry on; This is one of the worst ways of getting better at running because you'll need to rest after only a short amount of time; You'll discover how using advanced running techniques throughout your 5k training will transform your fitness and stamina levels in just days, never mind weeks; As well as this, these great strategies will actually reduce the overall time you need to spend on your training; It's designed for anyone who wants to start running but hasn't got hours to spare each week to do so; This truly is THE only running book you'll ever need.
