Playing for Keeps in Stocks & Futures Tom Bierovic, 2002-01-04 Playing for Keeps in Stocks and Futures offers traders three winning strategies for trading stocks and futures under any market condition and within any timeframe from one minute to one month Tom Bierovic details his newly developed trading strategies First Prize R2D2 and Triple Play and shows you how to integrate them with various technical indicators and analytical techniques to create low risk high reward trading opportunities Bierovic clearly explains the development of each system lists the rules and provides real world examples from a wide variety of stocks and futures in several timeframes to illustrate how and why each strategy works so well With these lessons you will quickly learn how to use Bierovic's original strategies to enter manage and exit your trades profitably This complete guide to stock and futures trading opens with a brief introduction to price swings impulse waves corrective waves and critical points and explains how the extreme and continuous variation in the duration and magnitude of price swings makes it possible for traders to speculate profitably It also reveals the three components of a complete trading strategy setups entries and exits and how you should use them when trading with First Prize R2D2 or Triple Play Before entering into an in depth discussion of these three winning trading strategies Playing for Keeps in Stocks and Futures explains the tools used in them including breakouts to new highs and lows directional movement index spread DMI spread exponential moving averages EMAs Fibonacci retracement zones Japanese candlestick charts moving average convergence divergence MACD parabolic stops trendlines true range and average true range ATR In explaining his three new trading strategies First Prize R2D2 and Triple Play Bierovic breaks down each strategy into its setup entry and exit components and illustrates how to implement each strategy through charts graphs and vivid examples from both the stock and futures markets Most importantly you will learn the unique qualities of each strategy and understand how the three strategies taken together can profit in any market conditions First Prize trades first pullbacks R2D2 trades subsequent pullbacks Triple Play trades trend reversals Take advantage of the tremendous opportunities offered to you by trading with First Prize R2D2 and Triple Play With these three strategies in your trading arsenal you too will soon be playing for keeps in stocks and futures Tom Bierovic President of the Synergy Trading Group has been trading stocks and futures successfully since 1971 Tom is also a popular and respected speaker he has presented highly rated seminars on technical analysis and trading at major conferences throughout the United States and in more than 40 countries on six continents Futures magazine Futures World News and Technical Analysis of Stock Commodities magazine have all published in depth interviews with Tom and he is featured in the book Real People Real Traders by Ruggiero and Toghraie For information on products and services offered by the Synergy Trading Group you can contact Tom by e mail at tbierovic@aol.com

The New Fibonacci Trader Robert Fischer, Jens Fischer, 2001-10-26 CD ROM contains WINPHI software

Technical Markets Indicators Richard J. Bauer, Julie R. Dahlquist, 1998-11-26 The use of technical market indicators has long been a controversial subject highly regarded by some and treated with great skepticism by others Yet the number of indicators and the number of individual investors and finance professionals using them continues to grow Now more than ever there is an urgent need for objective testing to determine the validity of these indicators Technical Market Indicators is a unique study of the performance of many of the most widely used technical analysis indicators The authors explore in an unbiased rigorous manner whether these indicators consistently perform well or fail to do the job They explain which indicators work best and why providing a clear picture of what the investor is likely to experience when using technical analysis Unlike other books on the subject Technical Market Indicators provides a comprehensive testing of indicators that uses a large sample of stocks over a twelve year time period encompassing varying market conditions Instead of using the traditional technical analysis charts this detailed analysis takes a different approach calculating numbers based on various relationships and letting the numbers dictate the decisions This allows the investor to use technical methods without ever consulting a chart From an objective standpoint the authors address both the pro and con arguments of using technical analysis and attempt to shed additional light onto the controversy through their systematic testing They also alert the investor to the many different issues that must be addressed when using technical indicators including performance measurement criteria consistency of results combining indicators portfolio considerations and leveraging This indispensable resource features Comprehensive testing of sixty different technical indicators fully described including Trading Band Crossover Relative Strength Peaks Random Walk Breakout Candle Belt Hold and Volume Trend An explanation of the underlying concepts behind the indicators and their methods of calculation In depth results of tests on each individual indicator with over 250 pages of detailed tables An examination of trading rules that combine two or more indicators and a report of a sampling of the best combinations An annotated bibliography For those new to technical analysis or for the experienced analyst looking for some fresh angles on the subject this one of a kind resource is the only one you ll need to navigate the increasingly complex maze of technical market indicators Can technical analysis be used as an effective tool to enhance investment performance This question is currently on the minds of many investors and traders The answer can be found in this invaluable comprehensive resource which provides a detailed analysis of the most commonly used indicators explaining in detail which indicators seem to work best why under what conditions and with which kinds of financial instruments Do technical market indicators provide useful information to the stock trader or is it impossible to beat a buy and hold strategy Bauer and Dahlquist tackle this controversy by rigorously testing 60 indicators on 878 stocks over a 12 year period Their explanations of the indicators the testing process and the results are clear and concise The 12 major conclusions based on this extensive research will provide the reader with plenty of opportunities to follow Bauer and Dahlquist s final advice Keep learning and keep thinking Tom Bierovic Manager System Trading Development Education Omega Research Inc

Who says a technician has to use charts Here is a book that sidesteps traditional technical analysis and describes how tabular data can be more informative Ralph Acampora Managing Director Prudential Securities *Trading to Win* Ari Kiev,1998-10-06 Even the best trading system can prove disastrous if the trader doesn't have the ability to stick to their strategy Featuring real life case studies *The Psychology of Trading* presents a step by step goal oriented approach to trading that emphasizes ways to keep emotions in check overcome self doubt and focus clearly on a winning strategy *Exchange Traded Funds and E-Mini Stock Index Futures* David Lerman,2002-07-01 Shows how to use both ETFs and E Minis for high powered results Exchange Traded Funds ETFs are a remarkable new tool for trading and investing in broad market segments or narrow sectors ETF trading volume and asset growth continue to soar at record levels Ideal for speculating in and hedging as well as long term investing in the broader markets these index products work together to diversify and balance any global portfolio Now one of the top executives and experts in the industry reveals the intricacies of the products how to use them and what the future holds Readers will get sample index portfolios and strategies for all market participants ranging from the short term trader to the long term investor and from the risk taker to the conservative investor David Lerman Chicago IL is the Senior Director of Equity Index Products Marketing at the Chicago Mercantile Exchange He has traveled around the globe on behalf of the CME giving seminars and workshops to retail and institutional audiences including pension funds corporations banks and brokers on risk management trading using equity index futures and options Expert Trading Systems John R.
