

Black Boomerang

Archibald Meston

Black Boomerang:

The Jazz War Will Studdert, 2017-12-11 During World War II jazz embodied everything that was appealing about a democratic society as envisioned by the Western Allied powers. Labeled degenerate by Hitler's cultural apparatus, jazz was adopted by the Allies to win the hearts and minds of the German public. It was also used by the Nazi Minister for Propaganda, Joseph Goebbels, to deliver a message of Nazi cultural and military superiority. When Goebbels co-opted young German and foreign musicians into Charlie and his Orchestra and broadcast their anti-Allied lyrics across the English Channel, jazz took centre stage in the propaganda war that accompanied World War II on the ground. *The Jazz War* is based on the largely unheard oral testimony of the personalities behind the German and British wartime radio broadcasts and chronicles the evolving relationship between jazz music and the Axis and Allied war efforts. Studdert shows how jazz both helped and hindered the Allied cause as Nazi soldiers secretly tuned in to British radio shows while London partygoers danced the night away in demimonde bottle parties, leading them to be branded a menace in Parliament. This book will appeal to students of the history of jazz, broadcasting, cultural studies, and the history of World War II.

How to Win an Information War Peter Pomerantsev, 2024-03-05 From one of our leading experts on disinformation, this inventive biography of the rogue WWII propagandist Sefton Delmer confronts hard questions about the nature of information war: what if you can't fight lies with truth? Can a propaganda war ever be won? In the summer of 1941, Hitler ruled Europe from the Atlantic to the Black Sea. Britain was struggling to combat his powerful propaganda machine, crowing victory and smearing his enemies as liars and manipulators over his frequent radio speeches blasted out on loudspeakers and into homes. British claims that Hitler was dangerous had little impact against this wave of disinformation. Except for the broadcasts of someone called Der Chef, a German who questioned Nazi doctrine. He had access to high-ranking German military secrets and spoke of internal rebellion. His listeners included German soldiers and citizens as well as politicians in Washington DC who were debating getting into the war. And most importantly, Der Chef was a fiction. He was a character created by the British propagandist Thomas Sefton Delmer, a unique weapon in the war. Then, as author Peter Pomerantsev seeks to tell Delmer's story, he is called into a wartime propaganda effort of his own: the US response to the invasion of Ukraine. In flashes forward to the present day, Pomerantsev weaves in what he's learning from Delmer as he seeks to fight against Vladimir Putin's tyranny and lies. This book is the story of Delmer and his modern investigator as they each embark on their own quest to manipulate the passions of supporters and enemies and to turn the tide of an information war, an extraordinary history that is informing the present before our eyes.

Outlook, 1928 *Revisiting the Colonial Past in Morocco* Driss Maghraoui, 2013-07-18 Exploring the concept of colonial cultures, this book analyses how these cultures both transformed and were transformed by their various societies. Challenging both the colonial vulgate and the nationalist paradigm, *Revisiting the Colonial Past in Morocco* examines the lesser-known specificities of particular moments, practices, and institutions in Morocco with the aim of uncovering a new colonial history. By

examining society on a micro level this book raises the profiles of the mass of Moroccans who were highly influential in the colonial period yet have been excluded from the historical record because of a lack of textual source material Introducing social and cultural history gender studies and literary criticism to the more traditional economic political and military studies the book promotes a more complex and nuanced understanding of Moroccan colonial history Employing new theoretical and methodological approaches this volume encourages a re assessment of existing work and promotes a more interdisciplinary approach to the colonial history of Morocco Revisiting the Colonial Past in Morocco is a highly topical and useful addition to literature on the subject and will be of interest to students and scholars of History Imperialism and more generally Middle Eastern Studies
