Nederlands Bibliographie Van Boek-'en Bibliogheekwezen ,1913 Dutch Typography in the Sixteenth Century Paul Valkema Blouw,2013-06-03 When compiling the short title catalogue of books printed in the sixteenth century northern Netherlands from 1541 to 1600 Paul Valkema Blouw was confronted with a large number of problem cases such as anonymously and or surreptitiously printed editions fictitious printers and undated or falsely dated printed works By minutely analysing the typefaces initials vignettes and other ornaments used drawing from his extensive knowledge of secondary literature archival information and his unrivalled typographic memory he not only managed to attribute a surprising number of these publications to a printer but also could establish the period of time in which as well as the places where they must have been printed These findings and the ways in which they were reached are described in the present collection of papers They are of paramount importance to scholars engaged in research of the period concerned whether in the field of church history national history or book history **Verhandelingen der Koninklijke Nederlandse Akademie van Wetenschappen, Afd.
