Teaching notes provide guidance and ideas on developing and enhancing the material provided in the core book as well as a list of topics that students are likely to find difficult. A question bank of material is included for use in revision with fully worked solutions to all consolidation A questions.

**Mathematics** Linda Bostock, Suzanne Chandler, 1984 Dealing with mechanics and the solving of mechanical problems with the help of pure mathematics, this A Level text introduces at an early stage an appreciation of the properties of vectors. Throughout the book problems are solved using vector methods where appropriate and many worked examples are provided to illustrate each main development of a topic.
