Canada History Identity And Culture Grade 12:

Discourses of Globalisation, Multiculturalism and Cultural Identity Joseph Zajda, Nitza Davidovitch, Suzanne Majhanovich, 2023-01-01 This book examines dominant discourses in multiculturalism and cultural identity globally. It critiques dominant discourses and debates pertaining to multiculturalism and cultural identity set against the current backdrop of growing social stratification and unequal access to quality education. It addresses current discourses concerning globalisation ideologies and the state as well as approaches to constructing national ethnic and religious identities in the global culture. It explores the ambivalent and problematic connections between the state, globalisation and the construction of cultural identity. The book also explores conceptual frameworks and methodological approaches applicable to research on the state, globalisation, multiculturalism and identity politics. Drawing on diverse paradigms ranging from critical theory to globalisation, the book, by focusing on globalisation ideology and cultural identity, critically examines recent research dealing with cultural diversity and its impact on identity politics. Given the need for a multiple perspective approach, the authors, who have diverse backgrounds and hail from different countries and regions, offer a wealth of insights contributing to a more holistic understanding of the nexus between multiculturalism and national identity. With contributions from key scholars worldwide, the book should be required reading for a broad spectrum of users including policy makers, academics, graduate students, education policy researchers, administrators and practitioners. *Course Profile*, 2002 Women, Gender, and History Education Marie-Hélène Brunet, Kristina R. Llewellyn, Rose Fine-Meyer, 2024-11-07 This is the first edited collection to focus on women, gender and history education in Canada. The aim of this edited collection is threefold: to offer a historical analysis of women and gender in K-12 teaching and learning of history; to provide an examination of women and gender in relation to contemporary pedagogy, curriculum and resources in K-12 history education and teacher education; and to explore the future of history education when informed by intersectional feminism and gender theory. Readers are introduced to the ways in which women's historical narratives have been repeatedly marginalized despite the efforts of feminist activists and educators. This collection is the beginning of a long overdue conversation about women and gender in how we teach and learn about the past. **The Palgrave Handbook of State-Sponsored History After 1945** Berber Bevernage, Nico Wouters, 2018-02-03 This handbook provides the first systematic, integrated analysis of the role that states or state actors play in the construction of history and public memory after 1945. The book focuses on many different forms of state-sponsored history, including memory laws, monuments and memorials, state archives, science policies, history in schools, truth commissions, historical expert commissions, the use of history in courts and tribunals, etc. The handbook contributes to the study of history and public memory by combining elements of state-focused research in separate fields of study. By looking at the state's memorialising capacities, the book introduces an analytical perspective that is not often found in classical studies of the state. The handbook has a broad geographical focus and analyses cases from different regions around the world. The

volume mainly tackles democratic contexts although dictatorial regimes are not excluded *Globalisation and Multicultural Education* Joseph Zajda, Suzanne Majhanovich, 2024-11-11 This book analyses dominant discourses of globalisation multiculturalism and schooling The chapters advance further the discussions on globalisation and its impact on cultural diversity and multiculturalism in a globalised world Multicultural education as presented in this volume is seen in a broad context It includes factors such as race ethnicity gender socio economic status culture age and physical ability as well as a variety of beliefs and values Zajda has argued that globalisation represents a synthesis of technology ideology and organisation specifically related to border crossings of people global finance trade IT convergence as well as cross cultural communication The reality of multiculturalism has been brought into stronger focus because of globalisation Multiculturalism is more evident today because of globalisation The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation and dominant models of multicultural education and their impact on students engagement and academic achievement Rethinking Schooling Ian Westbury, Geoff Milburn, 2006-11-22 Book Cover Half Title Series Title Title Copyright Contents Contributors Acknowledgements Introduction Rethinking schooling twenty five years of the Journal of Curriculum Studies Part I Thinking about schools and the curriculum 1 Strange curricula Origins and development of the institutional categories of schooling 2 Adam Smith and the moral economy of the classroom system 3 The lesson as a pedagogic text A case study of lesson designs Part II Thinking about pedagogy **Filipinos in Canada** Roland Sintos Coloma, Bonnie McElhinny, Ethel Tungohan, John Paul Catungal, Lisa M.
