Capitalism at the Crossroads Stuart L. Hart, 2010-06-15 Today's era of economic crisis has sent a powerful message. The age of mercenary capitalism is ending. We must finally embark on a new age of sustainable stakeholder based capitalism. While enlightened executives and policymakers understand the critical need for change, few have tangible plans for making it happen. In *Capitalism at the Crossroads Next Generation Business Strategies for a Post Crisis World Third Edition* Stuart L. In this edition, he presents new and updated case studies from the United States and around the world, demonstrating what's working and what isn't. He also guides business leaders in building an organizational infrastructure for sustainability, one that can survive budgeting and boardrooms, recharging innovation and growth throughout your enterprise. Discover the new business case for pursuing sustainable capitalism. Sustainability strategies that go far beyond environmental sensitivity. How to fully embed your enterprise in the local context and why you should. Tactics for making long term sustainability work in a short term world.
