

10. If you are given different frequency table, which column will be the class frequency table?

Answer:

Column 2, because it has the highest number of categories in the table.

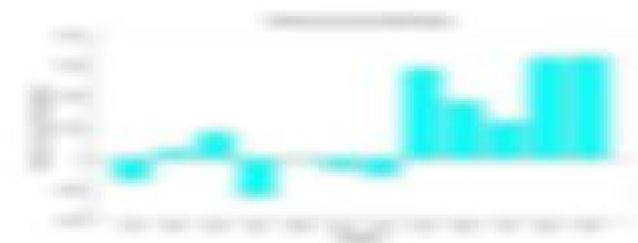

Example: The following table represents the distribution of various political parties in the 1998 US election. The following table represents the frequency distribution of candidates in the 1998 US election.

Answer:

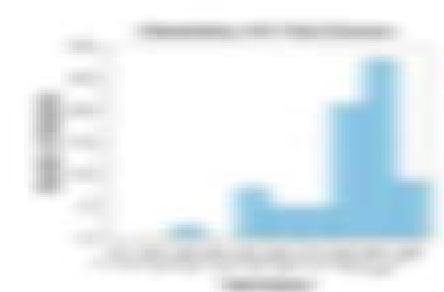

In the graph, the height of each bar represents the frequency of the class. The number of bars in each category.

Example: The following bar graph shows the number of votes in the 1998 US election. The number of votes in each category is shown in the following table.

Answer:

In a histogram, the height of each bar represents the frequency of the corresponding class. The number of bars in each category is shown in the following table.
