Cutting For Stone:

Cutting for Stone Abraham Verghese, 2012-05-17 Marion and Shiva Stone are twin brothers born of a secret union between a beautiful Indian nun and a brash British surgeon Orphaned by their mother's death and their father's disappearance and bound together by a preternatural connection and a shared fascination with medicine the twins come of age as Ethiopia hovers on the brink of revolution Moving from Addis Ababa to New York City and back again *Cutting for Stone* is an unforgettable story of love and betrayal medicine and ordinary miracles and two brothers whose fates are forever intertwined

Cutting for Stone Abraham Verghese, 2009 A masterly debut novel visceral in its power heartbreaking in its tenderness Transporting the reader from the 1940s to the present from a convent in India to a cargo ship bound for the Yemen from a tiny operating theatre in Ethiopia to a hospital in the Bronx *Cutting for Stone* is a thrilling epic of conjoined twins doctors and patients temptation and redemption home and exile and a riveting family story irresistibly charged with strange happenings humour and pathos that grabs you from its harrowing opening and never lets go Marion and Shiva Stone are twin sons of a secret union between an Indian nun and a British surgeon at Missing hospital in Addis Ababa Orphaned by their mother's death in childbirth and their father's disappearance bound together by a preternatural connection and a shared fascination with medicine the brothers come of age as Ethiopia hovers on the brink of revolution Yet it will be love not politics their passion for the same woman that tears them apart and forces Marion to flee his homeland He makes his way to America finding refuge in his work as a surgical intern at an underfunded overcrowded hospital When the past catches up with him Marion must trust his life to the two men he thought he trusted least in the world the surgeon father who abandoned him and the brother who betrayed him *Cutting for Stone* is both an unforgettable story of lives cut in half and a gripping evocation of the power intimacy danger and curious beauty of the ancient art that is at its heart

[Cutting for Stone](#) Marilyn Herbert, 2011 *Cutting for Stone* is very simply one of the best books ever written and read The narrative begins in Addis Ababa Ethiopia when twin boys Shiva and Marion are born to a nun who dies and a surgeon who runs away The babies conjoined at the head are successfully separated immediately after birth The original conjoinment and separation of the boys becomes the operating theme of the novel and we are given situation after situation in which to consider the concepts of fusion and partition Bookclub in a Box looks at all that Verghese provides history Ethiopia and Eritrea medicine blood and liver disease psychology the search for identity sociology human relationships and philosophy of both science and religion The narrative's real facts and descriptions are especially interesting for their thematic implications Every Bookclub in a Box printed discussion guide includes complete coverage of the themes and symbols writing style and interesting background information on the novel and the author
