Daemon English Edition:

Through the Daemon's Gate Dean Swinford, 2013-10-08 This book tells the story of the early modern astronomer Johannes Kepler's *Somnium* which has been regarded by science historians and literary critics alike as the first true example of science fiction. Kepler began writing his complex and heavily footnoted tale of a fictional Icelandic astronomer as an undergraduate and added to it throughout his life. The *Somnium* fuses supernatural and scientific models of the cosmos through a satirical defense of Copernicanism that features witches, lunar inhabitants, and a daemon who speaks in the empirical language of modern science. Swinford's look at the ways that Kepler's *Somnium* is influenced by the cosmic dream, a literary genre that enjoyed considerable popularity among medieval authors including Geoffrey Chaucer, Dante, John of Salisbury, Macrobius, and Alan of Lille. He examines the generic conventions of the cosmic dream, also studying the poetic and theological sensibilities underlying the categories of dreams formulated by Macrobius and Artemidorus that were widely used to interpret specific symbols in dreams and to assess their overall reliability. Swinford develops a key claim about the form of the *Somnium* as it relates to early science: Kepler relies on a genre that is closely connected to a Ptolemaic or earth-centered model of the cosmos as a way of explaining and justifying a model of the cosmos that does not posit the same connections between the individual and the divine that are so important for the Ptolemaic model. In effect, Kepler uses the cosmic dream to describe a universe that cannot lay claim to the same correspondences between an individual's dream and the order of the cosmos understood within the rules of the genre itself. To that end, Kepler's *Somnium* is the first example of science fiction, but the last example of Neoplatonic allegory.

The Angel & The Abyss J. Daniel Gunther, 2014-10-01 In this companion to *Initiation in the Aeon of the Child* now available in paperback, author J. Daniel Gunther provides detailed and cohesive analysis of the two major spiritual crises in the career of the aspirant in the Aeon of the Child: the Knowledge Conversation of the Holy Guardian Angel and the Crossing the Abyss between the divine realms and the human. Expounding on the sublime Formulas of Initiation confronting those who would aspire to these Mysteries, the author draws deeply from Jungian psychology, world mythology, and religion, and the doctrines of the classic Mystery traditions, explaining how the revelations of Thelema apply to the individual. *The Angel & The Abyss* is written in clear, precise language that will aid those students who seek to navigate the difficult terrain of this advanced stage of the Spiritual quest. More knowledgeable students will find tantalizing clues to serve as guideposts and eventual confirmations of their direct experience. The book offers copious illustrations, including some in full color and numerous diagrams. It features detailed references that encompass ancient Egyptian hieroglyphic texts, the Old and New Testaments, the Apocrypha, Greek philosophy, alchemy, hermetic qabalah, and tarot, as well as the writings of Carl Jung, Eric Neumann, and Aleister Crowley.

Shelley and Browning Frederick Albert Pottle, 1923 *The Era Magazine*, 1903 **Philosophy, Science and Exegesis in Greek, Arabic and Latin Commentaries** Peter Adamson, Han Baltussen, Martin William Francis Stone, 2004 This two volume Supplement to the Bulletin of the Institute of Classical Studies represents the proceedings of a conference held at the Institute on 27-29 June 2002 in honour of Richard Sorabji. These volumes which are intended to build on the massive achievement of Professor Sorabji's *Ancient Commentators on Aristotle* series focus on the commentary as a vehicle of philosophical and scientific thought. Volume One deals with the Greek tradition including one paper on Byzantine philosophy and one on the Latin author Calcidius who is very close to the late Greek tradition in outlook. The volume begins with an overview of the tradition of commenting on Aristotle and of the study of this tradition in the modern era. It concludes with an up to date bibliography of scholarship devoted to the commentators.

Carlyle and Jean Paul: Their Spiritual Optics J.P. Vijn, 1982-01-01. It has always been thought difficult if not impossible to define what the philosophy of Carlyle was. Ever since the publication of Sartor Resartus in 1833-1834 the view that Carlyle had a theistic conception of the universe has been defended as well as opposed. At a time therefore when Carlyle's work as a whole is being reappraised his philosophy should first and foremost be dealt with. Carlyle's life philosophy is based on the inner experience of a process of conversion which set in with an incident that occurred to him at Leith Walk Edinburgh. This study which settles the old question of the date of the incident demonstrates that the inner struggle the dynamics of which are described most fully in Sartor is analogous to the Jungian process of individuation. For the first time in critical literature the basic ideas of Carlyle's philosophy are thus linked to depth psychology and shown to be analogous to the fundamental concepts of Analytical Psychology. In recent criticism it has been asserted that the crisis recorded in Sartor is akin to the crisis of doubt said to underlie Jean Paul's *Rede des todten Christus* 1796 which is probably the first poetic expression of nihilism in European literature and has become a classic. Apart from demonstrating that in the last fifty years at least the *Rede* has erroneously been interpreted as a dream of annihilation this book invalidates the view of Jean Paul as victim of the skepticism of his age and argues that contrary to what is usually maintained the *Rede* is not the document of a crisis but of a belief which had become antiquated and obsolete for Carlyle.

While translation history in Canada is well documented the history of the translation of Canadian fiction outside the nation remains obscure. *Les Belles étrangères* examines the translation of Canadian English language fiction in France.
