Mourning and Resilience in Indian Ocean Life Writing Esther Pujolràs-Noguer, Felicity Hand, 2023-12-28 This volume examines a selection of life writing in English by authors from the South West Indian Ocean namely South Africa East Africa Mauritius and Sri Lanka The two motifs that run through the chapters mourning and resilience are theoretical frameworks that have so far not been brought into conversation in this way The combination of trauma studies and autobiographical analysis sharpens the focus of the discussions on Indian Ocean life writing privileging an Indian Ocean imaginary that is transnational and cross oceanic in its orientation and pointing to networks of connections that transcend the nation state which is often the origin of trauma in the first place Filling a gap in Indian Ocean studies in its close readings of trauma and resilience the book also broadens perspectives on postcolonial life writing since little attention has been paid so far to Indian Ocean autobiographical literary products By the same token the volume also enriches the field of Indian Ocean literary studies by incorporating life writing as an aesthetic strategy which helps to configure Indian Ocean subjectivities

Performing Homescapes Sally Mackey, Adelina Ong, 2025-03-05 Part of the *Performing Landscapes* series *Performing Homescapes* is an edited collection comprising a contemporary exploration of performing many iterations of landscapes of homes Authors were invited to respond to a detailed brief with home to be deliberately reconsidered as homescape represented by landscapes sites and practices often outside and occasionally including a conventional home as house and intimate dwelling We wanted a diverse range of geographical sites to be represented and a global offer encompassing a pluriverse of homescapes Voices practices and epistemologies from the Global South and global majority were important to us including Indigenous ways of knowing and practicing This curated collection

offers an expanded understanding of the performance of home scapes as a new intervention into the fields of performance and home scholarship Performing Homescapes moves beyond spatial meditations within rooms of a house to offer an original critical engagement with the social political ecological and cultural landscapes that shape and sustain affects related to the notion of home unhomeliness and even solastalgia While the impact of the social political and cultural landscapes on relationships with and within the house are implied in most academic literature on forms of performing home it is foregrounded in the chapters of this edited collection In addition certain chapters attend to the more than human human relationships with the Earth as homescape and the co creation of homescapes within and beyond dwellings

Fashioning Diaspora Vanita Reddy,2016-02 The author maps how transnational itineraries of Indian beauty and fashion shaped South Asian American cultural identities and racialized belonging from the 1990s through the first decade of the twenty first century She observes how diasporic subjects engage with and respond to various encounters with Indian beauty and fashion She examines a range of literature visual art and live performance such as novels by Bharati Mukherjee and Jhumpa Lahiri young adult literature performance art by Shailja Patel beauty and adornment practices as well as objects of popular culture including an Indian American fashion doll Reddy challenges fashion and beauty as a set of dematerialized overly commodified cultural practices She argues instead that beauty and fashion structure South Asian Americans uneven access to social mobility capital and citizenship and she demonstrates their varying capacities to produce social attachments across national class racial gender and generational divides

Conscripts of Migration Christopher Ian Foster,2019-08-23 In Conscripts of Migration Neoliberal Globalization Nationalism and the Literature of New African Diasporas author Christopher Ian Foster analyzes increasingly urgent questions regarding crises of global immigration by redefining migration in terms of conscription and by studying contemporary literature Reporting on immigration whether liberal or conservative popular or scholarly leaves out the history in which the Global North helped create outward migration in the Global South From histories of racial capitalism the trans Atlantic slave trade and imperialism to contemporary neoliberal globalization and the resurgence of xenophobic nationalism countries in the Global North continue to devastate and destabilize the Global South Britain France Italy and the United States in different ways police the effects of their own global policies at their borders Foster provides a substantial study of a new body of contemporary African diasporic literature called migritude literature Migritude indicates the work and ideas of a disparate yet distinct group of younger African authors born after independence in the 1960s Most often migritude authors have lived both in and outside Africa and narrate the experiences of migration under the pressures of globalization They also emphasize that immigration itself and stereotypes of the immigrant are entangled with the history of colonialism Authors like Fatou Diome Shailja Patel Abdourahman Waberi Cristina Ali Farah and others confront critical issues of migrancy diaspora departure return racism identity gender sexuality and postcoloniality

Chimeras of Form Aarthi Vadde,2016-12-13 In the years following World War I the international emerged as a distinct

scale of political and cultural focus Internationalisms proliferated in kind as writers and thinkers sought to imagine modes of cooperation that would balance transnational solidarities with national sovereignty While so called political realists across the twentieth century have regarded such attempts as wishful thinking Aarthi Vadde argues that the negotiation of wishing and thinking is at the very heart of internationalism In *Chimeras of Form* she shows why modernist literary form is essential to understanding the aspirational and analytical force of internationalism in and beyond Europe Major writers such as Rabindranath Tagore James Joyce Claude McKay George Lamming Michael Ondaatje and Zadie Smith use modernist strategies to reshape how readers think about the cohesion and interrelation of political communities in the wake of empire Vadde lucidly explains how their formal experiments with the novel short story poetry and political essay contribute to and sometimes even anticipate debates in postcolonial theory and cosmopolitanism She reads Joyce's use of asymmetrical narratives as a way to ask questions about international camaraderie and demonstrates how the plotless works of McKay and Lamming upturn ideas of citizenship and diasporic alienation Her analysis of twenty first century writers Smith and Shailja Patel shows how ongoing conflicts around migration displacement and global economic inequality link modernist postcolonial and contemporary traditions of literature Vadde brings these traditions together to reveal the dual nature of internationalism as an ambition possibly a chimeric one and an actual political discourse vital to understanding our present moment
