The Augustan Succession Peter Michael Swan,2004-06-17 Written in the author s maternal Greek the Roman History of the third century A D historian Cassius Dio is our fullest surviving historical source for the reign of the Emperor Augustus In The Augustan Succession Peter Michael Swan provides an ample historical and historiographic commentary on Books 55 56 of the History These books recount Augustus s last twenty three years 9 B C A D 14 during which the aging monarch amid dynastic tragedies and military setbacks orchestrated the continuation of the constitutional and imperial system developed under his leadership which ended in his transmission of power to his son in law Tiberius The Augustan Succession is the first commentary since the eighteenth century to offer full and fresh treatment of this segment of Dio s work This commentary pays close critical attention to Dio s historical sources methods and assumptions as it also strives to present him as a figure in his own right During a long life ca 164 after 229 Dio served as a Roman senator under seven emperors from Commodus to Severus Alexander governed three Roman provinces and was twice consul An acute and interested contemporary observer of wide experience positioned close to the seat of imperial power he was a self assured personality who embodied deeply conservative political and social views and prejudices All these factors inform the pages of Dio s Augustan narrative as does above all his doctrine that the best remedy for the troubles of his own age of rust and iron was rule on the model of Augustus This is an historical commentary on Books 55 56 of Dio s Roman History These books recount the last half of the reign of the Emperor Augustus above all his orchestration of the first imperial succession Addressed to both students and scholars the new commentary is the first since the eighteenth century to offer full and fresh treatment of this segment of Dio s work

Iconophilia Francesca Dell'Acqua,2020-05-07 Between the late seventh and the mid ninth centuries a debate about sacred images conventionally addressed as Byzantine iconoclasm engaged monks emperors and popes in the Mediterranean area and on the European continent The importance of this debate cannot be overstated it challenged the relation between image text and belief A series of popes staunchly in favour of sacred images acted consistently during this period in displaying a remarkable iconophilia or love for images Their multifaceted reaction involved not only council resolutions and diplomatic exchanges but also public religious festivals liturgy preaching and visual

arts the mass media of the time Embracing these tools the popes especially promoted themes related to the Incarnation of God which justified the production and veneration of sacred images and extolled the role and the figure of the Virgin Mary Despite their profound influence over Byzantine and western cultures of later centuries the political theological and artistic interactions between the East and the West during this period have not yet been investigated in studies combining textual and material evidence By drawing evidence from texts and material culture some of which have yet to be discussed against the background of the iconoclastic controversy and by considering the role of oral exchange Iconophilia assesses the impact of the debate on sacred images and of coeval theological controversies in Rome and central Italy By looking at intersecting textual liturgical and pictorial images which had at their core the Incarnate God and his human mother Mary the book demonstrates that between c 680 880 by unremittingly maintaining the importance of the visual for nurturing beliefs and mediating personal and communal salvation the popes ensured that the status of sacred images would remain unchallenged at least until the Protestant Reformation in the sixteenth century Una nobile follia Igino Ugo Tarchetti,2009 *Ricerche di storia politica* ,2005 **Sacrum Poloniae millenium** Ladislaw Smolen,1966 **Studi storici** ,1989 *Catalogo dei libri in commercio* ,2003 *Death, War, and Sacrifice* Bruce Lincoln,1991-08-27 One of the world s leading specialists in Indo European religion and society Bruce Lincoln expresses in these essays his severe doubts about the existence of a much hypothesized prototypical Indo European religion Written over fifteen years the essays six of them previously unpublished fall into three parts Part I deals with matters Indo European in a relatively unproblematized way exploring a set of haunting images that recur in descriptions of the Otherworld from many cultures While Lincoln later rejects this methodology these chapters remain the best available source of data for the topics they address In Part II Lincoln takes the data for each essay from a single culture area and shifts from the topic of dying to that of killing Of particular interest are the chapters connecting sacrifice to physiology a master discourse of antiquity that brought the cosmos the human body and human society into an ideologically charged correlation Part III presents Lincoln s most controversial case against a hypothetical Indo European protoculture Reconsidering the work of the prominent Indo Europeanist Georges Dumzil Lincoln argues that Dumzil s writings were informed and inflected by covert political concerns characteristic of French fascism This collection is an invaluable resource for students of myth ritual ancient societies anthropology and the history of religions Bruce Lincoln is professor of humanities and religious studies at the University of Minnesota *Atene e Roma* ,1925 Geografia per tutti rivista quindicinale per la diffusione delle cognizioni geografiche ,1896 **Carlo Crivelli** R. W. Lightbown,Ronald Lightbown,2004-01-01 Venetian artist Carlo Crivelli c 1430 1495 is a painter whose individuality of style and mastery of powerful line have fascinated many but whose life and art have remained enigmatic This absorbing book drawing on extensive research in Venice and the Marches the region of central Italy that Crivelli dominated artistically from 1468 until his death examines his paintings in depth and traces the fundamental influences of the Vivarini of Squarcione and Mantegna

and later of Flemish art Ronald Lightbown eminent historian of Italian Renaissance art interweaves stylistic and iconographical analysis of Crivelli s work with historical and cultural background The author uncovers the reasons that led patrons to choose the saints that figured in Crivelli s altarpieces discusses the initiations of new cults and the devising of an iconography for them and demonstrates Crivelli s independence from clerical dictation in the symbolism of his still life pictures
